SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2008-2010 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns. For 2008 to 2009, the Population Estimates Program provides intercensal estimates of the population for the nation, states, and counties.

Subject	Rock Springs city, Wyoming			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	9,115	+/-328	9,115	(X)
Family households (families)	6,588	+/-382	72.3%	+/-4.0
With own children under 18 years	3,597	+/-350	39.5%	+/-3.7
Married-couple family	5,130	+/-358	56.3%	+/-4.3
With own children under 18 years	2,506	+/-293	27.5%	+/-3.3
Male householder, no wife present, family	608	+/-261	6.7%	+/-2.8
With own children under 18 years	396	+/-230	4.3%	+/-2.5
Female householder, no husband present, family	850	+/-242	9.3%	+/-2.6
With own children under 18 years	695	+/-228	7.6%	+/-2.5
Nonfamily households	2,527	+/-393	27.7%	+/-4.0
Householder living alone	1,836	+/-367	20.1%	+/-3.8
65 years and over	462	+/-169	5.1%	+/-1.8
Households with one or more people under 18 years	3,886	+/-335	42.6%	+/-3.6
Households with one or more people 65 years and over	1,240	+/-169	13.6%	+/-1.9
Average household size	2.43	+/-0.09	(X)	(X)
Average family size	2.82	+/-0.13	(X)	(X)
RELATIONSHIP				
Population in households	22,182	+/-169	22,182	(X)
Householder	9,115	+/-328	41.1%	+/-1.5
Spouse	5,016	+/-367	22.6%	+/-1.6
Child	6,311	+/-475	28.5%	+/-2.1
Other relatives	657	+/-254	3.0%	+/-1.1
Nonrelatives	1,083	+/-284	4.9%	+/-1.3
Unmarried partner	789	+/-214	3.6%	+/-1.0
MARITAL STATUS				
Males 15 years and over	9,111	+/-309	9,111	(X)
Never married	2,371	+/-376	26.0%	+/-3.8
Now married, except separated	5,314	+/-422	58.3%	+/-4.9
Separated	95	+/-84	1.0%	+/-0.9
Widowed	128	+/-78	1.4%	+/-0.9
Divorced	1,203	+/-297	13.2%	+/-3.2
Females 15 years and over	8,668	+/-235	8,668	(X)

Subject	Rock Springs city, Wyoming			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Never married	1,666	+/-248	19.2%	+/-2.8
Now married, except separated	5,148	+/-379	59.4%	+/-4.4
Separated	177	+/-108	2.0%	+/-1.2
Widowed	458	+/-166	5.3%	+/-1.9
Divorced	1,219	+/-281	14.1%	+/-3.2
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	745	+/-252	745	(X)
Unmarried women (widowed, divorced, and never married)	132	+/-100	17.7%	+/-12.9
Per 1,000 unmarried women	55	+/-40	(X)	(X)
Per 1,000 women 15 to 50 years old	128	+/-43	(X)	(X)
Per 1,000 women 15 to 19 years old	76	+/-74	(X)	(X)
Per 1,000 women 20 to 34 years old	235	+/-86	(X)	(X)
Per 1,000 women 35 to 50 years old	19	+/-21	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	500	+/-276	500	(X)
Responsible for grandchildren	246	+/-155	49.2%	+/-27.0
Years responsible for grandchildren				
Less than 1 year	0	+/-154	0.0%	+/-10.4
1 or 2 years	73	+/-60	14.6%	+/-14.6
3 or 4 years	0	+/-154	0.0%	+/-10.4
5 or more years	173	+/-157	34.6%	+/-26.9
Number of grandparents responsible for own grandchildren under 18 years	246	+/-155	246	(X)
Who are female	136	+/-80	55.3%	+/-14.7
Who are married	N	N	N	N
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	5,560	+/-536	5,560	(X)
Nursery school, preschool	472	+/-184	8.5%	+/-3.1
Kindergarten	246	+/-106	4.4%	+/-1.9
Elementary school (grades 1-8)	2,360	+/-306	42.4%	+/-4.7
High school (grades 9-12)	981	+/-191	17.6%	+/-3.6
College or graduate school	1,501	+/-358	27.0%	+/-5.1
EDUCATIONAL ATTAINMENT				
Population 25 years and over	14,053	+/-364	14,053	(X)
Less than 9th grade	228	+/-130	1.6%	+/-0.9
9th to 12th grade, no diploma	872	+/-250	6.2%	+/-1.8
High school graduate (includes equivalency)	4,979	+/-559	35.4%	+/-3.8
Some college, no degree	3,796	+/-523	27.0%	+/-3.8
Associate's degree	1,574	+/-335	11.2%	+/-2.4
Bachelor's degree	1,817	+/-375	12.9%	+/-2.6
Graduate or professional degree	787	+/-278	5.6%	+/-2.0
Percent high school graduate or higher	(X)	(X)	92.2%	+/-2.2
Percent bachelor's degree or higher	(X)	(X)	18.5%	+/-3.2
VETERAN STATUS				
Civilian population 18 years and over	16,908	+/-289	16,908	(X)
Civilian veterans	1,927	+/-315	11.4%	+/-1.9
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	22,646	+/-64	22,646	(X)
With a disability	2,425	+/-465	10.7%	+/-2.0
Under 18 years	5,803	+/-289	5,803	(X)
With a disability	180	+/-112	3.1%	+/-1.9
18 to 64 years	15,206	+/-331	15,206	(X)
With a disability	1,558	+/-397	10.2%	+/-2.6
65 years and over	1,637	+/-160	1,637	(X)
With a disability	687	+/-195	42.0%	+/-10.4
RESIDENCE 1 YEAR AGO				
Population 1 year and over	22,192	+/-179	22,192	(X)

Subject	Rock Springs city, Wyoming			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Same house	17,354	+/-911	78.2%	+/-3.9
Different house in the U.S.	4,818	+/-871	21.7%	+/-4.0
Same county	2,969	+/-699	13.4%	+/-3.2
Different county	1,849	+/-619	8.3%	+/-2.8
Same state	353	+/-251	1.6%	+/-1.1
Different state	1,496	+/-568	6.7%	+/-2.6
Abroad	20	+/-23	0.1%	+/-0.1
PLACE OF BIRTH

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2008-2010 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

SELECTED ECONOMIC CHARACTERISTICS

2008-2010 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns. For 2008 to 2009, the Population Estimates Program provides intercensal estimates of the population for the nation, states, and counties.

Subject	Rock Springs city, Wyoming			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
EMPLOYMENT STATUS				
Population 16 years and over	17,447	+/-311	17,447	(X)

Unrelated individuals 15 years and over	(X)	(X)	11.6%	+/-4.9

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC) 2010. The 2010 Census occupation codes were updated in accordance with the 2010 revision of the SOC. To allow for the creation of 2006-2010 and 2008-2010 tables, occupation data in the multiyear files (2006-2010 and 2008-2010) were recoded to 2010 Census occupation codes. We recommend using caution when comparing data coded using 2010 Census occupation codes with data coded using previous Census occupation codes. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/oiindex/>.

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2008-2010 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household income are valid values.

The 2009 and 2010 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Two races excluding Some other race, and Three or more races	659	+/-227	2.9%	+/-1.0
Total housing units	9,999	+/-287	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data).

The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
