SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2009-2011 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Teton County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	7,050	+/-492	7,050	(X)
Family households (families)	4,476	+/-499	63.5%	+/-5.6
With own children under 18 years	N	N	N	N
Married-couple family	4,056	+/-529	57.5%	+/-6.3
With own children under 18 years	N	N	N	N
Male householder, no wife present, family	113	+/-110	1.6%	+/-1.6
With own children under 18 years	N	N	N	N
Female householder, no husband present, family	307	+/-234	4.4%	+/-3.3
With own children under 18 years	N	N	N	N
Nonfamily households	2,574	+/-442	36.5%	+/-5.6
Householder living alone	1,879	+/-438	26.7%	+/-5.9
65 years and over	491	+/-212	7.0%	+/-2.9
Households with one or more people under 18 years	2,231	+/-414	31.6%	+/-5.0
Households with one or more people 65 years and over	1,333	+/-183	18.9%	+/-2.5
Average household size	N	N	(X)	(X)
Average family size	N	N	(X)	(X)
RELATIONSHIP				
Population in households	N	N	N	(X)
Householder	7,050	+/-492	33.8%	+/-2.4
Spouse	3,975	+/-527	19.0%	+/-2.6
Child	7,344	+/-783	35.2%	+/-3.8
Other relatives	661	+/-431	3.2%	+/-2.1
Nonrelatives	1,851	+/-844	8.9%	+/-4.0
Unmarried partner	432	+/-219	2.1%	+/-1.0
MARITAL STATUS				
Males 15 years and over	9,020	+/-585	9,020	(X)
Never married	4,216	+/-696	46.7%	+/-6.2
Now married, except separated	4,108	+/-629	45.5%	+/-7.1
Separated	0	+/-113	0.0%	+/-0.6
Widowed	234	+/-131	2.6%	+/-1.5
Divorced	462	+/-264	5.1%	+/-2.9
Females 15 years and over	7,841	+/-287	7,841	(X)
Never married	2,762	+/-410	35.2%	+/-5.2

Subject	Teton County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Now married, except separated	4,214	+/-605	53.7%	+/-7.2
Separated	0	+/-113	0.0%	+/-0.7
Widowed	406	+/-215	5.2%	+/-2.7
Divorced	459	+/-270	5.9%	+/-3.4
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	N	N	N	(X)
Unmarried women (widowed, divorced, and never married)	N	N	N	N
Per 1,000 unmarried women	N	N	(X)	(X)
Per 1,000 women 15 to 50 years old	N	N	(X)	(X)
Per 1,000 women 15 to 19 years old	N	N	(X)	(X)
Per 1,000 women 20 to 34 years old	N	N	(X)	(X)
Per 1,000 women 35 to 50 years old	N	N	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	N	N	N	(X)
Responsible for grandchildren	N	N	N	N
Years responsible for grandchildren				
Less than 1 year	N	N	N	N
1 or 2 years	N	N	N	N
3 or 4 years	N	N	N	N
5 or more years	N	N	N	N
Number of grandparents responsible for own grandchildren under 18 years	N	N	N	(X)
Who are female	N	N	N	N
Who are married	N	N	N	N
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	4,880	+/-978	4,880	(X)
Nursery school, preschool	334	+/-137	6.8%	+/-3.3
Kindergarten	543	+/-548	11.1%	+/-9.9
Elementary school (grades 1-8)	1,968	+/-603	40.3%	+/-16.4
High school (grades 9-12)	1,274	+/-628	26.1%	+/-9.3
College or graduate school	761	+/-434	15.6%	+/-8.1
EDUCATIONAL ATTAINMENT				
Population 25 years and over	13,928	+/-582	13,928	(X)
Less than 9th grade	147	+/-114	1.1%	+/-0.8
9th to 12th grade, no diploma	142	+/-129	1.0%	+/-0.9
High school graduate (includes equivalency)	3,050	+/-692	21.9%	+/-4.9
Some college, no degree	3,392	+/-636	24.4%	+/-4.4
Associate's degree	420	+/-169	3.0%	+/-1.2
Bachelor's degree	4,462	+/-757	32.0%	+/-5.0
Graduate or professional degree	2,315	+/-486	16.6%	+/-3.5
Percent high school graduate or higher	(X)	(X)	97.9%	+/-1.2
Percent bachelor's degree or higher	(X)	(X)	48.7%	+/-6.0
VETERAN STATUS				
Civilian population 18 years and over	15,896	+/-372	15,896	(X)
Civilian veterans	969	+/-251	6.1%	+/-1.6
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	21,287	+/-66	21,287	(X)
With a disability	1,469	+/-551	6.9%	+/-2.6
Under 18 years	5,460	+/-372	5,460	(X)
With a disability	393	+/-510	7.2%	+/-9.5
18 to 64 years	13,773	+/-370	13,773	(X)
With a disability	622	+/-319	4.5%	+/-2.3
65 years and over	2,054	+/-50	2,054	(X)
With a disability	454	+/-203	22.1%	+/-9.9
RESIDENCE 1 YEAR AGO				
Population 1 year and over	21,157	+/-135	21,157	(X)
Same house	18,144	+/-1,900	85.8%	+/-8.9

Subject	Teton County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Different house in the U.S.	2,982	+/-1,878	14.1%	+/-8.9
Same county	2,577	+/-1,813	12.2%	+/-8.6
Different county	405	+/-285	1.9%	+/-1.3
Same state	9	+/-13	0.0%	+/-0.1
Different state	396	+/-285	1.9%	+/-1.3
Abroad	31	+/-47	0.1%	+/-0.2
PLACE OF BIRTH				
Total population	21,364	*****	21,364	(X)
Native	19,821	+/-878	92.8%	+/-4.1
Born in United States	19,546	+/-873	91.5%	+/-4.1
State of residence	6,354	+/-1,106	29.7%	+/-5.2
Different state	13,192	+/-1,046	61.7%	+/-4.9
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	275	+/-188	1.3%	+/-0.9
Foreign born	1,543	+/-878	7.2%	+/-4.1
U.S. CITIZENSHIP STATUS				
Foreign-born population	1,543	+/-878	1,543	(X)

Welsh	423	+/-321	2.0%	+/-1.5
West Indian (excluding Hispanic origin groups)	10	+/-20	0.0%	+/-0.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Starting in 2008, the Scotch-Irish category does not include Irish-Scotch. People who reported Irish-Scotch ancestry are classified under "Other groups," whereas in 2007 and earlier they were classified as Scotch-Irish.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2009-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2009-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

People in families	(X)	(X)	10.3%	+/-7.4
Unrelated individuals 15 years and over	(X)	(X)	10.6%	+/-5.7

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Census occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC). The Census occupation codes for 2010 and later years are based on the 2010 revision of the SOC. To allow for the creation of 2007-2011 and 2009-2011 tables, occupation data in the multiyear files (2007-2011 and 2009-2011) were recoded to 2011 Census occupation codes. We recommend using caution when comparing data coded using 2011 Census occupation codes with data coded using Census occupation codes prior to 2010. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/oiindex/>.

While the 2009-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2009-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

No rent paid	N	N	(X)	(X)
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				

Subject	Teton County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Occupied units paying rent (excluding units where GRAPI cannot be computed)	2,237	+/-470	2,237	(X)
Less than 15.0 percent	286	+/-160	12.8%	+/-6.9
15.0 to 19.9 percent	370	+/-209	16.5%	+/-9.4
20.0 to 24.9 percent	300	+/-211	13.4%	+/-9.1
25.0 to 29.9 percent	327	+/-268	14.6%	+/-10.8
30.0 to 34.9 percent	180	+/-179	8.0%	+/-7.5
35.0 percent or more	774	+/-320	34.6%	+/-12.6
Not computed	472	+/-206	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household income are valid values.

The 2009, 2010, and 2011 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

Median calculations for base table sourcing VAL, MHC, SMOC, and TAX should exclude zero values.

While the 2009-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2009-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

American Indian and Alaska Native	204	+/-193	1.0%	+/-0.9
Asian	N	N	N	N
Native Hawaiian and Other Pacific Islander	N	N	N	N
Some other race	N	N	N	N
HISPANIC OR LATINO AND RACE				
Total population	21,364	****	21,364	(X)
Hispanic or Latino (of any race)	3,136	****	14.7%	****
Mexican	N	N	N	N
Puerto Rican	N	N	N	N
Cuban	N	N	N	N
Other Hispanic or Latino	N	N	N	N
Not Hispanic or Latino	18,228	****	85.3%	****
White alone	N	N	N	N
Black or African American alone	N	N	N	N
American Indian and Alaska Native alone	N	N	N	N
Asian alone	N	N	N	N
Native Hawaiian and Other Pacific Islander alone	N	N	N	N
Some other race alone	N	N	N	N
Two or more races	N	N	N	N
Two races including Some other race	N	N	N	N
Two races excluding Some other race, and Three or more races	N	N	N	N
Total housing units	12,839	+/-90	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2009-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
