SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2011-2013 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Campbell County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	17,382	+/-506	17,382	(X)
Family households (families)	11,937	+/-647	68.7%	+/-3.6
With own children under 18 years	6,231	+/-627	35.8%	+/-3.5
Married-couple family	9,604	+/-672	55.3%	+/-4.0
With own children under 18 years	4,527	+/-619	26.0%	+/-3.5
Male householder, no wife present, family	795	+/-346	4.6%	+/-2.0
With own children under 18 years	524	+/-273	3.0%	+/-1.6
Female householder, no husband present, family	1,538	+/-410	8.8%	+/-2.3
With own children under 18 years	1,180	+/-338	6.8%	+/-1.9
Nonfamily households	5,445	+/-683	31.3%	+/-3.6
Householder living alone	4,019	+/-572	23.1%	+/-3.1
65 years and over	886	+/-231	5.1%	+/-1.3
Households with one or more people under 18 years	6,489	+/-621	37.3%	+/-3.4
Households with one or more people 65 years and over	2,304	+/-174	13.3%	+/-0.9
Average household size	2.71	+/-0.08	(X)	(X)
Average family size	3.21	+/-0.12	(X)	(X)
RELATIONSHIP				
Population in households	47,131	+/-148	47,131	(X)
Householder	17,382	+/-506	36.9%	+/-1.1
Spouse	9,582	+/-681	20.3%	+/-1.4
Child	15,003	+/-625	31.8%	+/-1.3
Other relatives	1,852	+/-636	3.9%	+/-1.3
Nonrelatives	3,312	+/-573	7.0%	+/-1.2
Unmarried partner	1,314	+/-372	2.8%	+/-0.8
MARITAL STATUS				
Males 15 years and over	18,802	+/-171	18,802	(X)
Never married	5,866	+/-573	31.2%	+/-3.0
Now married, except separated	10,484	+/-724	55.8%	+/-3.8
Separated	532	+/-230	2.8%	+/-1.2

Subject	Campbell County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Widowed	447	+/-242	2.4%	+/-1.3
Divorced	1,473	+/-386	7.8%	+/-2.0
Females 15 years and over	17,180	+/-173	17,180	(X)
Never married	4,114	+/-646	23.9%	+/-3.7
Now married, except separated	9,359	+/-787	54.5%	+/-4.7
Separated	304	+/-182	1.8%	+/-1.1
Widowed	924	+/-278	5.4%	+/-1.6
Divorced	2,479	+/-545	14.4%	+/-3.2
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	456	+/-196	456	(X)
Unmarried women (widowed, divorced, and never married)	144	+/-117	31.6%	+/-24.4
Per 1,000 unmarried women	28	+/-23	(X)	(X)
Per 1,000 women 15 to 50 years old	39	+/-17	(X)	(X)
Per 1,000 women 15 to 19 years old	15	+/-20	(X)	(X)
Per 1,000 women 20 to 34 years old	83	+/-36	(X)	(X)
Per 1,000 women 35 to 50 years old	3	+/-5	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	N	N	N	N
Responsible for grandchildren	N	N	N	N
Years responsible for grandchildren				
Less than 1 year	N	N	N	N
1 or 2 years	N	N	N	N
3 or 4 years	N	N	N	N
5 or more years	N	N	N	N
Number of grandparents responsible for own grandchildren under 18 years	N	N	N	N
Who are female	145	+/-91	54.5%	+/-12.7
Who are married	N	N	N	N
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	12,323	+/-597	12,323	(X)
Nursery school, preschool	533	+/-220	4.3%	+/-1.7
Kindergarten	751	+/-237	6.1%	+/-1.9
Elementary school (grades 1-8)	6,016	+/-338	48.8%	+/-3.8
High school (grades 9-12)	2,845	+/-302	23.1%	+/-2.3
College or graduate school	2,178	+/-487	17.7%	+/-3.3
EDUCATIONAL ATTAINMENT				
Population 25 years and over	29,672	+/-255	29,672	(X)
Less than 9th grade	943	+/-319	3.2%	+/-1.1
9th to 12th grade, no diploma	1,634	+/-446	5.5%	+/-1.5
High school graduate (includes equivalency)	10,962	+/-839	36.9%	+/-2.8
Some college, no degree	7,244	+/-777	24.4%	+/-2.6
Associate's degree	3,326	+/-571	11.2%	+/-1.9
Bachelor's degree	4,322	+/-726	14.6%	+/-2.5
Graduate or professional degree	1,241	+/-280	4.2%	+/-0.9
Percent high school graduate or higher	(X)	(X)	91.3%	+/-1.8
Percent bachelor's degree or higher	(X)	(X)	18.7%	+/-2.5
VETERAN STATUS				
Civilian population 18 years and over	33,981	+/-150	33,981	(X)
Civilian veterans	2,865	+/-469	8.4%	+/-1.4

Subject	Campbell County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	47,218	+/-162	47,218	(X)
With a disability	4,273	+/-700	9.0%	+/-1.5
Under 18 years	13,466	+/-115	13,466	(X)
With a disability	596	+/-269	4.4%	+/-2.0
18 to 64 years	30,929	+/-172	30,929	(X)
With a disability	2,705	+/-512	8.7%	+/-1.7
65 years and over	2,823	+/-102	2,823	(X)
With a disability	972	+/-259	34.4%	+/-9.0
RESIDENCE 1 YEAR AGO				
Population 1 year and over	46,868	+/-211	46,868	(X)
Same house	37,505	+/-1,518	80.0%	+/-3.3

With a broadband Internet subscription	(X)	(X)	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Fertility data are not available for certain geographic areas due to problems with data collection. See Errata Note #92 for details.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes

when using multi-year data containing data from 2013.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2011-2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2011-2013 3-Year American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2013 and later years are based on the 2012 revision of the NAICS. To allow for the creation of 2009-2013 and 2011-2013 tables, industry data in the multiyear files (2009-2013 and 2011-2013) were recoded to 2013 Census industry codes. We recommend using caution when comparing data coded using 2013 Census industry codes with data coded using Census industry codes prior to 2013. For more information on the Census industry code changes, please visit our website at <http://www.census.gov/people/io/methodology/>.

While the 2011-2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2011-2013 3-Year American Community Survey

Explanation of Symbols:

1. An *** entry in the margin of error column indicates that either no sample observations or too few sample observations were

available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household Income are valid values.

The 2009, 2010, 2011, 2012, and 2013 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

Median calculations for base table sourcing VAL, MHC, SMOC, and TAX should exclude zero values.

Telephone service data are not available for certain geographic areas due to problems with data collection. See Errata Note #93 for details.

While the 2011-2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Subject	Campbell County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Total housing units	19,338	+/-61	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2011-2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
