SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2007-2011 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Douglas city, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	2,652	+/-140	2,652	(X)
Family households (families)	1,497	+/-160	56.4%	+/-5.5
With own children under 18 years	723	+/-107	27.3%	+/-4.3
Married-couple family	1,145	+/-162	43.2%	+/-5.3
With own children under 18 years	448	+/-108	16.9%	+/-4.0
Male householder, no wife present, family	67	+/-48	2.5%	+/-1.8
With own children under 18 years	57	+/-47	2.1%	+/-1.8
Female householder, no husband present, family	285	+/-113	10.7%	+/-4.3
With own children under 18 years	218	+/-99	8.2%	+/-3.8
Nonfamily households	1,155	+/-165	43.6%	+/-5.5
Householder living alone	1,040	+/-153	39.2%	+/-5.1
65 years and over	330	+/-97	12.4%	+/-3.7
Households with one or more people under 18 years	758	+/-108	28.6%	+/-4.5
Households with one or more people 65 years and over	547	+/-94	20.6%	+/-3.5
Average household size	2.23	+/-0.12	(X)	(X)
Average family size	2.98	+/-0.22	(X)	(X)
RELATIONSHIP				
Population in households	5,917	+/-60	5,917	(X)
Householder	2,652	+/-140	44.8%	+/-2.4
Spouse	1,108	+/-160	18.7%	+/-2.7
Child	1,634	+/-161	27.6%	+/-2.7
Other relatives	220	+/-113	3.7%	+/-1.9
Nonrelatives	303	+/-130	5.1%	+/-2.2
Unmarried partner	192	+/-103	3.2%	+/-1.7
MARITAL STATUS				
Males 15 years and over	2,181	+/-158	2,181	(X)
Never married	541	+/-148	24.8%	+/-5.9
Now married, except separated	1,210	+/-145	55.5%	+/-6.8
Separated	76	+/-68	3.5%	+/-3.1
Widowed	25	+/-18	1.1%	+/-0.9
Divorced	329	+/-112	15.1%	+/-5.1
Females 15 years and over	2,422	+/-151	2,422	(X)
Never married	470	+/-143	19.4%	+/-5.4

Subject	Douglas city, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Now married, except separated	1,149	+/-172	47.4%	+/-7.1
Separated	24	+/-41	1.0%	+/-1.7
Widowed	266	+/-83	11.0%	+/-3.3
Divorced	513	+/-153	21.2%	+/-6.3
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	34	+/-27	34	(X)
Unmarried women (widowed, divorced, and never married)	12	+/-20	35.3%	+/-48.4
Per 1,000 unmarried women	16	+/-27	(X)	(X)
Per 1,000 women 15 to 50 years old	24	+/-19	(X)	(X)
Per 1,000 women 15 to 19 years old	0	+/-162	(X)	(X)
Per 1,000 women 20 to 34 years old	28	+/-35	(X)	(X)
Per 1,000 women 35 to 50 years old	26	+/-34	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	51	+/-57	51	(X)
Responsible for grandchildren	38	+/-42	74.5%	+/-26.4
Years responsible for grandchildren				
Less than 1 year	0	+/-89	0.0%	+/-41.5
1 or 2 years	0	+/-89	0.0%	+/-41.5
3 or 4 years	0	+/-89	0.0%	+/-41.5
5 or more years	38	+/-42	74.5%	+/-26.4
Number of grandparents responsible for own grandchildren under 18 years	38	+/-42	38	(X)
Who are female	11	+/-17	28.9%	+/-30.8
Who are married	38	+/-42	100.0%	+/-48.1
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	1,367	+/-165	1,367	(X)
Nursery school, preschool	112	+/-57	8.2%	+/-4.2
Kindergarten	107	+/-73	7.8%	+/-5.1
Elementary school (grades 1-8)	673	+/-126	49.2%	+/-6.8
High school (grades 9-12)	308	+/-90	22.5%	+/-6.3
College or graduate school	167	+/-67	12.2%	+/-4.5
EDUCATIONAL ATTAINMENT				
Population 25 years and over	3,923	+/-154	3,923	(X)
Less than 9th grade	128	+/-93	3.3%	+/-2.4
9th to 12th grade, no diploma	171	+/-74	4.4%	+/-1.9
High school graduate (includes equivalency)	1,419	+/-225	36.2%	+/-5.3
Some college, no degree	1,092	+/-158	27.8%	+/-3.9
Associate's degree	459	+/-167	11.7%	+/-4.4
Bachelor's degree	509	+/-165	13.0%	+/-4.1
Graduate or professional degree	145	+/-78	3.7%	+/-1.9
Percent high school graduate or higher	(X)	(X)	92.4%	+/-3.2
Percent bachelor's degree or higher	(X)	(X)	16.7%	+/-4.7
VETERAN STATUS				
Civilian population 18 years and over	4,408	+/-160	4,408	(X)
Civilian veterans	559	+/-127	12.7%	+/-2.8
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION

Welsh	18	+/-21	0.3%	+/-0.3
West Indian (excluding Hispanic origin groups)	0	+/-89	0.0%	+/-0.5

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2007-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Unrelated individuals 15 years and over	(X)	(X)	18.5%	+/-6.8

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Census occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC). The Census occupation codes for 2010 and later years are based on the 2010 revision of the SOC. To allow for the creation of 2007-2011 and 2009-2011 tables, occupation data in the multiyear files (2007-2011 and 2009-2011) were recoded to 2011 Census occupation codes. We recommend using caution when comparing data coded using 2011 Census occupation codes with data coded using Census occupation codes prior to 2010. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/oiindex/>.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2007-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				

Subject	Douglas city, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Occupied units paying rent (excluding units where GRAPI cannot be computed)	924	+/-157	924	(X)
Less than 15.0 percent	182	+/-109	19.7%	+/-10.8
15.0 to 19.9 percent	182	+/-93	19.7%	+/-9.5
20.0 to 24.9 percent	89	+/-55	9.6%	+/-5.9
25.0 to 29.9 percent	90	+/-59	9.7%	+/-6.4
30.0 to 34.9 percent	112	+/-76	12.1%	+/-8.2
35.0 percent or more	269	+/-112	29.1%	+/-11.3
Not computed	34	+/-38	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household income are valid values.

The 2007, 2008, 2009, 2010, and 2011 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

Median calculations for base table sourcing VAL, MHC, SMOC, and TAX should exclude zero values.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Guamanian or Chamorro	0	+/-89	0.0%	+/-0.5
Samoan	0	+/-89	0.0%	+/-0.5
Other Pacific Islander	0	+/-89	0.0%	+/-0.5
Some other race	129	+/-99	2.1%	+/-1.6
Two or more races	158	+/-60	2.6%	+/-1.0
White and Black or African American	70	+/-27	1.2%	+/-0.4
White and American Indian and Alaska Native	87	+/-58	1.4%	+/-1.0
White and Asian	0	+/-89	0.0%	+/-0.5
Black or African American and American Indian and Alaska Native	0	+/-89	0.0%	+/-0.5
Race alone or in combination with one or more other races				
Total population	6,002	+/-34	6,002	(X)
White	5,716	+/-148	95.2%	+/-2.4
Black or African American	70	+/-27	1.2%	+/-0.4
American Indian and Alaska Native	217	+/-81	3.6%	+/-1.3
Asian	19	+/-34	0.3%	+/-0.6
Native Hawaiian and Other Pacific Islander	8	+/-16	0.1%	+/-0.3
Some other race	130	+/-97	2.2%	+/-1.6
HISPANIC OR LATINO AND RACE				
Total population	6,002	+/-34	6,002	(X)
Hispanic or Latino (of any race)	330	+/-125	5.5%	+/-2.1
Mexican	301	+/-113	5.0%	+/-1.9
Puerto Rican	0	+/-89	0.0%	+/-0.5
Cuban	0	+/-89	0.0%	+/-0.5
Other Hispanic or Latino	29	+/-36	0.5%	+/-0.6
Not Hispanic or Latino	5,672	+/-124	94.5%	+/-2.1
White alone	5,384	+/-131	89.7%	+/-2.2
Black or African American alone	0	+/-89	0.0%	+/-0.5
American Indian and Alaska Native alone	107	+/-88	1.8%	+/-1.5
Asian alone	19	+/-34	0.3%	+/-0.6
Native Hawaiian and Other Pacific Islander alone	8	+/-16	0.1%	+/-0.3
Some other race alone	0	+/-89	0.0%	+/-0.5
Two or more races	154	+/-59	2.6%	+/-1.0
Two races including Some other race	0	+/-89	0.0%	+/-0.5
Two races excluding Some other race, and Three or more races	154	+/-59	2.6%	+/-1.0
Total housing units	2,890	+/-141	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '- ' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+ ' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
