SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2013-2017 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Subject	Worland city, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	2,211	+/-106	2,211	(X)
Family households (families)	1,396	+/-106	63.1%	+/-5.6
With own children of the householder under 18 years	687	+/-122	31.1%	+/-5.7
Married-couple family	1,049	+/-96	47.4%	+/-4.7
With own children of the householder under 18 years	443	+/-85	20.0%	+/-3.9
Male householder, no wife present, family	121	+/-67	5.5%	+/-3.0
With own children of the householder under 18 years	81	+/-54	3.7%	+/-2.5
Female householder, no husband present, family	226	+/-77	10.2%	+/-3.6
With own children of the householder under 18 years	163	+/-68	7.4%	+/-3.1
Nonfamily households	815	+/-148	36.9%	+/-5.6
Householder living alone	629	+/-132	28.4%	+/-5.2
65 years and over	317	+/-94	14.3%	+/-4.0
Households with one or more people under 18 years	721	+/-127	32.6%	+/-6.0
Households with one or more people 65 years and over	733	+/-91	33.2%	+/-3.5
Average household size	2.36	+/-0.11	(X)	(X)
Average family size	2.98	+/-0.16	(X)	(X)
RELATIONSHIP				
Population in households	5,217	+/-50	5,217	(X)
Householder	2,211	+/-106	42.4%	+/-2.0
Spouse	1,062	+/-98	20.4%	+/-1.9
Child	1,578	+/-147	30.2%	+/-2.8
Other relatives	130	+/-94	2.5%	+/-1.8
Nonrelatives	236	+/-81	4.5%	+/-1.6
Unmarried partner	138	+/-65	2.6%	+/-1.3
MARITAL STATUS				

Subject	Worland city, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Males 15 years and over	2,006	+/-96	2,006	(X)
Never married	545	+/-117	27.2%	+/-5.3
Now married, except separated	1,110	+/-101	55.3%	+/-5.3
Separated	16	+/-22	0.8%	+/-1.1
Widowed	28	+/-26	1.4%	+/-1.3
Divorced	307	+/-102	15.3%	+/-5.0
Females 15 years and over	2,109	+/-103	2,109	(X)
Never married	373	+/-87	17.7%	+/-3.8
Now married, except separated	1,029	+/-115	48.8%	+/-5.8
Separated	33	+/-44	1.6%	+/-2.1
Widowed	264	+/-73	12.5%	+/-3.3
Divorced	410	+/-100	19.4%	+/-4.6
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	93	+/-54	93	(X)
Unmarried women (widowed, divorced, and never married)	27	+/-26	29.0%	+/-23.7
Per 1,000 unmarried women	47	+/-44	(X)	(X)
Per 1,000 women 15 to 50 years old	86	+/-50	(X)	(X)
Per 1,000 women 15 to 19 years old	41	+/-59	(X)	(X)
Per 1,000 women 20 to 34 years old	86	+/-67	(X)	(X)
Per 1,000 women 35 to 50 years old	110	+/-89	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	76	+/-58	76	(X)
Grandparents responsible for grandchildren	42	+/-44	55.3%	+/-53.0
Years responsible for grandchildren				
Less than 1 year	7	+/-10	9.2%	+/-15.1
1 or 2 years	0	+/-17	0.0%	+/-33.2
3 or 4 years	0	+/-17	0.0%	+/-33.2
5 or more years	35	+/-43	46.1%	+/-50.8
Number of grandparents responsible for own grandchildren under 18 years	42	+/-44	42	(X)
Who are female	24	+/-24	57.1%	+/-19.9
Who are married	35	+/-43	83.3%	+/-29.2
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	1,292	+/-155	1,292	(X)
Nursery school, preschool	75	+/-42	5.8%	+/-3.2
Kindergarten	36	+/-32	2.8%	+/-2.5
Elementary school (grades 1-8)	671	+/-113	51.9%	+/-6.5
High school (grades 9-12)	412	+/-80	31.9%	+/-4.9
College or graduate school	98	+/-59	7.6%	+/-4.3
EDUCATIONAL ATTAINMENT				
Population 25 years and over	3,440	+/-126	3,440	(X)
Less than 9th grade	78	+/-44	2.3%	+/-1.3
9th to 12th grade, no diploma	378	+/-116	11.0%	+/-3.4
High school graduate (includes equivalency)	990	+/-199	28.8%	+/-5.6
Some college, no degree	970	+/-156	28.2%	+/-4.3
Associate's degree	385	+/-102	11.2%	+/-3.0
Bachelor's degree	497	+/-119	14.4%	+/-3.5
Graduate or professional degree	142	+/-78	4.1%	+/-2.2
Percent high school graduate or higher	(X)	(X)	86.7%	+/-3.8
Percent bachelor's degree or higher	(X)	(X)	18.6%	+/-4.1

Subject	Worland city, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
VETERAN STATUS				
Civilian population 18 years and over	3,807	+/-114	3,807	(X)
Civilian veterans	481	+/-118	12.6%	+/-3.1
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	5,222	+/-49	5,222	(X)
With a disability	935	+/-203	17.9%	+/-3.9
Under 18 years				
With a disability	170	+/-99	11.3%	+/-6.4
18 to 64 years				
With a disability	394	+/-126	14.0%	+/-4.5
65 years and over				
With a disability	371	+/-90	41.3%	+/-8.9
RESIDENCE 1 YEAR AGO				
Population 1 year and over	5,234	+/-48	5,234	(X)
Same house	4,304	+/-259	82.2%	+/-4.6
Different house in the U.S.	921	+/-236	17.6%	+/-4.6
Same county	598	+/-194	11.4%	+/-3.7
Different county	323	+/-153	6.2%	+/-2.9
Same state	215	+/-107	4.1%	+/-2.1
Different state	108	+/-92	2.1%	+/-1.7
Abroad	9	+/-15	0.2%	+/-0.3
PLACE OF BIRTH				
Total population	5,310	+/-19	5,310	(X)
Native	5,147	+/-110	96.9%	+/-2.0
Born in United States	5,133	+/-113	96.7%	+/-2.1
State of residence	2,789	+/-224	52.5%	+/-4.2
Different state	2,344	+/-214	44.1%	+/-4.0
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	14	+/-17	0.3%	+/-0.3
Foreign born	163	+/-108	3.1%	+/-2.0
U.S. CITIZENSHIP STATUS				
Foreign-born population	163	+/-108	163	(X)
Naturalized U.S. citizen	55	+/-44	33.7%	+/-32.2
Not a U.S. citizen	108	+/-102	66.3%	+/-32.2
YEAR OF ENTRY				
Population born outside the United States	177	+/-110	177	(X)
Native				
Entered 2010 or later	0	+/-17	0.0%	+/-79.3
Entered before 2010	14	+/-17	100.0%	+/-79.3
Foreign born

Ukrainian	0	+/-17	0.0%	+/-0.6
Welsh	59	+/-32	1.1%	+/-0.6
West Indian (excluding Hispanic origin groups)	0	+/-17	0.0%	+/-0.6
COMPUTERS AND INTERNET USE				
Total households	2,211	+/-106	2,211	(X)
With a computer	1,919	+/-112	86.8%	+/-4.3
With a broadband Internet subscription	1,654	+/-139	74.8%	+/-5.8

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using 2013 data or multi-year data containing data from 2013. For more information, see: Language User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

Data about computer and Internet use were collected by asking respondents to select "Yes" or "No" to each type of computer and each type of Internet subscription. Therefore, respondents were able to select more than one type of computer and more than one type of Internet subscription.

The category "with a broadband Internet subscription" refers to those who said "Yes" to at least one of the following types of Internet subscriptions: Broadband such as cable, fiber optic, or DSL; a cellular data plan; satellite; or a fixed wireless subscription.

An Internet "subscription" refers to a type of service that someone pays for to access the Internet such as a cellular data plan, broadband such as cable, fiber optic or DSL, or other type of service. This will normally refer to a service that someone is billed for directly for Internet alone or sometimes as part of a bundle.

"With a computer" includes those who said "Yes" to at least one of the following types of computers: Desktop or laptop; smartphone; tablet or other portable wireless computer; or some other type of computer.

In 2016, changes were made to the computer and Internet use questions, involving the wording as well as the response options. A crosswalk was used to map pre-2016 data to the post-2016 categories, enabling creation of 5-year data. For more detailed information about the 2016 changes, see the 2016 American Community Survey Content Test Report for Computer and Internet Use located at <https://www.census.gov/programs-surveys/acs/methodology/content-test.htm> or the user note regarding changes in the 2016 questions located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html>. For more detailed information about the crosswalk, see the user note regarding the crosswalk located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html>.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "Health Insurance Table Updates" for further details.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-1' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+1' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Not computed	56	+/-51	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection of this question that occurred in 2015 and 2016. Both ACS 1-year and ACS 5-year files were affected. It may take several years in the ACS 5-year files until the estimates are available for the geographic areas affected.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Some other race alone	0	+/-17	0.0%	+/-0.6
Two or more races	140	+/-84	2.6%	+/-1.6
Two races including Some other race	24	+/-37	0.5%	+/-0.7
Two races excluding Some other race, and Three or more races	116	+/-74	2.2%	+/-1.4
Total housing units	2,378	+/-100	(X)	(X)
CITIZEN, VOTING AGE POPULATION				
Citizen, 18 and over population	3,714	+/-145	3,714	(X)
Male	1,832	+/-109	49.3%	+/-2.1
Female	1,882	+/-102	50.7%	+/-2.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
