

Big Horn County, Wyoming

Selected Social Characteristics in the United States: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
HOUSEHOLDS BY TYPE				
Total households	4,588	+/-119	4,588	(X)
Family households (families)	3,292	+/-173	71.8%	+/-3.2
With own children under 18 years	1,441	+/-142	31.4%	+/-2.8
Married-couple family	2,854	+/-164	62.2%	+/-3.4
With own children under 18 years	1,168	+/-139	25.5%	+/-2.9
Male householder, no wife present, family	185	+/-69	4.0%	+/-1.5
With own children under 18 years	104	+/-48	2.3%	+/-1.0
Female householder, no husband present, family	253	+/-71	5.5%	+/-1.5
With own children under 18 years	169	+/-61	3.7%	+/-1.3
Nonfamily households	1,296	+/-151	28.2%	+/-3.2
Householder living alone	1,147	+/-156	25.0%	+/-3.3
65 years and over	575	+/-108	12.5%	+/-2.3
Households with one or more people under 18 years	1,605	+/-144	35.0%	+/-2.9
Households with one or more people 65 years and over	1,396	+/-67	30.4%	+/-1.5
Average household size	2.46	+/-0.06	(X)	(X)
Average family size	2.92	+/-0.11	(X)	(X)
RELATIONSHIP				
Population in households	11,309	+/-59	11,309	(X)
Householder	4,588	+/-119	40.6%	+/-1.1
Spouse	2,837	+/-168	25.1%	+/-1.5
Child	3,143	+/-168	27.8%	+/-1.5
Other relatives	332	+/-128	2.9%	+/-1.1
Nonrelatives	409	+/-108	3.6%	+/-1.0
Unmarried partner	205	+/-74	1.8%	+/-0.7
MARITAL STATUS				
Males 15 years and over	4,477	+/-76	4,477	(X)
Never married	911	+/-98	20.3%	+/-2.1
Now married, except separated	2,983	+/-158	66.6%	+/-3.4
Separated	37	+/-23	0.8%	+/-0.5
Widowed	141	+/-46	3.1%	+/-1.0
Divorced	405	+/-98	9.0%	+/-2.2
Females 15 years and over	4,533	+/-77	4,533	(X)
Never married	763	+/-113	16.8%	+/-2.4
Now married, except separated	2,849	+/-184	62.9%	+/-4.1
Separated	33	+/-25	0.7%	+/-0.6
Widowed	516	+/-84	11.4%	+/-1.9
Divorced	372	+/-77	8.2%	+/-1.7
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	203	+/-52	203	(X)
Unmarried women (widowed, divorced, and never married)	80	+/-56	39.4%	+/-23.6
Per 1,000 unmarried women	88	+/-62	(X)	(X)
Per 1,000 women 15 to 50 years old	87	+/-23	(X)	(X)

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
Per 1,000 women 15 to 19 years old	12	+/-19	(X)	(X)
Per 1,000 women 20 to 34 years old	246	+/-71	(X)	(X)
Per 1,000 women 35 to 50 years old	22	+/-17	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	174	+/-72	174	(X)
Responsible for grandchildren	111	+/-61	63.8%	+/-17.5
Years responsible for grandchildren				
Less than 1 year	26	+/-23	14.9%	+/-13.4
1 or 2 years	53	+/-47	30.5%	+/-20.4
3 or 4 years	11	+/-12	6.3%	+/-6.1
5 or more years	21	+/-22	12.1%	+/-12.5
Number of grandparents responsible for own grandchildren under 18 years	111	+/-61	111	(X)
Who are female	56	+/-34	50.5%	+/-14.2
Who are married	96	+/-59	86.5%	+/-14.0
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	2,737	+/-152	2,737	(X)
Nursery school, preschool	174	+/-61	6.4%	+/-2.1
Kindergarten	175	+/-47	6.4%	+/-1.7
Elementary school (grades 1-8)	1,235	+/-76	45.1%	+/-3.8
High school (grades 9-12)	794	+/-85	29.0%	+/-3.1
College or graduate school	359	+/-116	13.1%	+/-3.7
EDUCATIONAL ATTAINMENT				
Population 25 years and over	7,543	+/-34	7,543	(X)
Less than 9th grade	266	+/-85	3.5%	+/-1.1
9th to 12th grade, no diploma	616	+/-134	8.2%	+/-1.8
High school graduate (includes equivalency)	2,363	+/-187	31.3%	+/-2.5
Some college, no degree	2,158	+/-203	28.6%	+/-2.7
Associate's degree	710	+/-137	9.4%	+/-1.8
Bachelor's degree	1,034	+/-150	13.7%	+/-2.0
Graduate or professional degree	396	+/-106	5.2%	+/-1.4
Percent high school graduate or higher	88.3%	+/-2.1	(X)	(X)
Percent bachelor's degree or higher	19.0%	+/-2.1	(X)	(X)
VETERAN STATUS				
Civilian population 18 years and over	8,398	+/-16	8,398	(X)
Civilian veterans	1,206	+/-135	14.4%	+/-1.6
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
Under 18 years	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
18 to 64 years	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
65 years and over	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
RESIDENCE 1 YEAR AGO				
Population 1 year and over	11,225	+/-43	11,225	(X)
Same house	9,695	+/-252	86.4%	+/-2.2
Different house in the U.S.	1,518	+/-248	13.5%	+/-2.2
Same county	849	+/-222	7.6%	+/-2.0
Different county	669	+/-193	6.0%	+/-1.7
Same state	265	+/-136	2.4%	+/-1.2
Different state	404	+/-141	3.6%	+/-1.3
Abroad	12	+/-14	0.1%	+/-0.1
PLACE OF BIRTH				
Total population	11,372	*****	11,372	(X)
Native	10,977	+/-150	96.5%	+/-1.3
Born in United States	10,948	+/-147	96.3%	+/-1.3
State of residence	6,124	+/-316	53.9%	+/-2.8
Different state	4,824	+/-295	42.4%	+/-2.6
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	29	+/-20	0.3%	+/-0.2
Foreign born	395	+/-150	3.5%	+/-1.3

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
U.S. CITIZENSHIP STATUS				
Foreign-born population	395	+/-150	395	(X)
Naturalized U.S. citizen	133	+/-50	33.7%	+/-16.5
Not a U.S. citizen	262	+/-148	66.3%	+/-16.5
YEAR OF ENTRY				
Population born outside the United States	424	+/-147	424	(X)
Native	29	+/-20	29	(X)
Entered 2000 or later	0	+/-119	0.0%	+/-55.1

West Indian (excluding Hispanic origin groups)	0	+/-119	0.0%	+/-0.3

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the

lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).
- The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Because of contextual differences between the 2008-2009 disability data and disability data collected in prior years, the Census Bureau is unable to combine the 5 years of disability data in order to produce the multi-year estimate that would appear in this table. Multi-year estimates of disability status will become available once five consecutive years of data are collected. For more information about the differences between the 2008 and prior years' disability questions, see [Review of Changes to the Measurement of Disability in the 2008 ACS](#).
- Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Unrelated individuals 15 years and over	22.5%	+/-5.4	(X)	(X)

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).
- Workers include members of the Armed Forces and civilians who were at work last week.
- Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.
- Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2005, 2006 and 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 5 years of data are consistent in display and reflect the NAICS 2007 codes. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.
- Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the [ACS User Notes](#) for details.
- Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added in 2009 -- please see http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf for more details.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Big Horn County, Wyoming

Selected Housing Characteristics: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Housing Characteristics	Estimate	Margin of Error	Percent	Margin of Error
HOUSING OCCUPANCY				
Total housing units	5,252	+/-47	5,252	(X)
Occupied housing units	4,588	+/-119	87.4%	+/-2.3
Vacant housing units	664	+/-120	12.6%	+/-2.3
Homeowner vacancy rate	3.2	+/-1.8	(X)	(X)
Rental vacancy rate	0.5	+/-0.8	(X)	(X)
UNITS IN STRUCTURE				
Total housing units	5,252	+/-47	5,252	(X)
1-unit, detached	4,044	+/-155	77.0%	+/-2.9
1-unit, attached	40	+/-30	0.8%	+/-0.6

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

•Caution should be used when comparing data for Number of Rooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see [Errata Note #54](#).

-Caution should be used when comparing data for Number of Bedrooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "0 bedrooms" category. For more information please see [Errata Note #54](#).

-The 2005-2009 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

-Caution should be used when comparing data for Telephone Service Availability between 2008 and 2009. A data collection error was identified for 2008 impacting the "no" category and underreporting those who did not have telephone service available. For more information please see [Errata Note #53](#).

-Caution should be used when comparing data for Occupants per Room between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see [Errata Note #54](#).

-In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

-In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

-In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household Income are valid values.

-The median gross rent excludes no cash renters.

-While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)

The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '****' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A

statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Big Horn County, Wyoming
Population and Housing Narrative Profile: 2005-2009
 Data Set: **2005-2009 American Community Survey 5-Year Estimates**
 Survey: **American Community Survey**

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

HOUSEHOLDS AND FAMILIES: In 2005-2009 there were 4,600 households in Big Horn County. The average household size was 2.5 people.

Families made up 72 percent of the households in Big Horn County. This figure includes both married-couple families (62 percent) and other families (10 percent). Nonfamily households made up 28 percent of all households in Big Horn County. Most of the nonfamily households were people living alone, but some were composed of people living in households in which no one was related to the householder.

Source: American Community Survey, 2005-2009

EDUCATION: In 2005-2009, 88 percent of people 25 years and over had at least graduated from high school and 19 percent had a bachelor's degree or higher. Twelve percent were dropouts; they were not enrolled in school and had not graduated from high school.

The total school enrollment in Big Horn County was 2,700 in 2005-2009. Nursery school and kindergarten enrollment was 350 and elementary or high school enrollment was 2,000 children. College or graduate school enrollment was 360.

The Educational Attainment of People in Big Horn County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

DISABILITY: In Big Horn County, among people at least five years old in 2005-2009, percent reported a disability. The likelihood of having a disability varied by age - from percent of people 5 to 15 years old, to percent of people 16 to 64 years old, and to percent of those 65 and older.

INDUSTRIES: In 2005-2009, for the employed population 16 years and older, the leading industries in Big Horn County were Educational services, and health care, and social assistance, 24 percent, and Agriculture, forestry, fishing and hunting, and mining, 16 percent.

Employment by Industry in Big Horn County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

OCCUPATIONS AND TYPE OF EMPLOYER: Among the most common occupations were: Management, professional, and related occupations, 32 percent; Construction, extraction, maintenance, and repair occupations, 19 percent; Service occupations, 17 percent; Production, transportation, and material moving occupations, 15 percent; and Sales and office occupations, 14 percent. Sixty-two percent of the people employed were Private wage and salary workers; 24 percent was Federal, state, or local government workers; and 13 percent was Self-employed in own not incorporated business workers.

TRAVEL TO WORK: Seventy-seven percent of Big Horn County workers drove to work alone in 2005-2009, 9 percent carpooled, less than 0.5 percent took public transportation, and 6 percent used other means. The remaining 8 percent worked at home. Among those who commuted to work, it took them on average 20 minutes to get to work.

INCOME: The median income of households in Big Horn County was \$44,612. Seventy-six percent of the households received earnings and 20 percent received retirement income other than Social Security. Thirty-six percent of the households received Social Security. The average income from Social Security was \$14,929. These income sources are not mutually exclusive; that is, some households received income from more than one source.

POVERTY AND PARTICIPATION IN GOVERNMENT PROGRAMS: In 2005-2009, 8 percent of people were in poverty. Nine percent of related children under 18 were below the poverty level, compared with 8 percent of people 65 years old and over. Six percent of all families and 36 percent of families with a female householder and no husband present had incomes below the poverty level.

Source: American Community Survey, 2005-2009

POPULATION OF Big Horn County: In 2005-2009, Big Horn County had a total population of 11,000 - 5,700 (50 percent) females and 5,700 (50 percent) males. The median age was 41.9 years. Twenty-six percent of the population was under 18 years and 17 percent was 65 years and older.

The Age Distribution of People in Big Horn County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

For people reporting one race alone, 94 percent was White; less than 0.5 percent was Black or African American; 2 percent was American Indian and Alaska Native; less than 0.5 percent was Asian; less than 0.5 percent was Native Hawaiian and Other Pacific Islander, and 3 percent was Some other race. One percent reported Two or more races. Eight percent of the people in Big Horn County was Hispanic. Eighty-nine percent of the people in Big Horn County was White non-Hispanic. People of Hispanic origin may be of any race.

HOUSING CHARACTERISTICS: In 2005-2009, Big Horn County had a total of 5,300 housing units, 13 percent of which were vacant. Of the total housing units, 78 percent was in single-unit structures, 7 percent was in multi-unit structures, and 15 percent was mobile homes. Sixteen percent of the housing units were built since 1990.

The Types of Housing Units in Big Horn County, Wyoming in 2005-2009

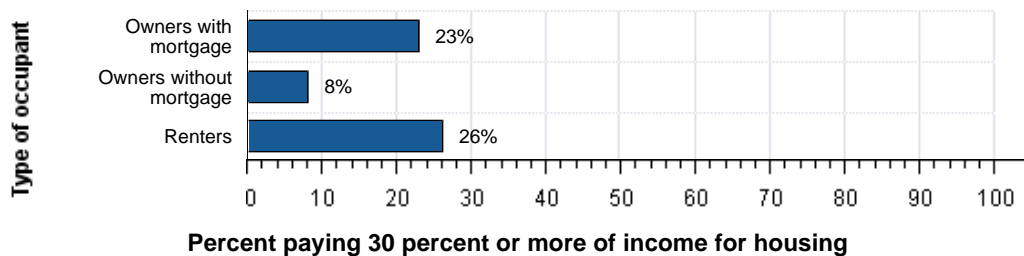

Source: American Community Survey, 2005-2009

OCCUPIED HOUSING UNIT CHARACTERISTICS: In 2005-2009, Big Horn County had 4,600 occupied housing units - 3,400 (74 percent) owner occupied and 1,200 (26 percent) renter occupied. Five percent of the households did not have telephone service and 2 percent of the households did not have access to a car, truck, or van for private use. Multi Vehicle households were not rare. Thirty-five percent had two vehicles and another 41 percent had three or more.

HOUSING COSTS: The median monthly housing costs for mortgaged owners was \$948, nonmortgaged owners \$317, and renters \$510. Twenty-three percent of owners with mortgages, 8 percent of owners without mortgages, and 26 percent of renters in Big Horn County spent 30 percent or more of household income on housing.
