

Carbon County, Wyoming

Selected Social Characteristics in the United States: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
HOUSEHOLDS BY TYPE				
Total households	6,156	+/-323	6,156	(X)
Family households (families)	4,249	+/-300	69.0%	+/-3.5
With own children under 18 years	1,888	+/-197	30.7%	+/-3.1
Married-couple family	3,358	+/-261	54.5%	+/-3.4
With own children under 18 years	1,254	+/-171	20.4%	+/-2.8
Male householder, no wife present, family	356	+/-125	5.8%	+/-2.0
With own children under 18 years	223	+/-101	3.6%	+/-1.6
Female householder, no husband present, family	535	+/-165	8.7%	+/-2.6
With own children under 18 years	411	+/-132	6.7%	+/-2.1
Nonfamily households	1,907	+/-244	31.0%	+/-3.5
Householder living alone	1,572	+/-228	25.5%	+/-3.3
65 years and over	494	+/-132	8.0%	+/-2.0
Households with one or more people under 18 years	2,098	+/-213	34.1%	+/-3.4
Households with one or more people 65 years and over	1,241	+/-194	20.2%	+/-2.7
Average household size	2.32	+/-0.09	(X)	(X)
Average family size	2.76	+/-0.13	(X)	(X)
RELATIONSHIP				
Population in households	14,297	+/-438	14,297	(X)
Householder	6,156	+/-323	43.1%	+/-1.6
Spouse	3,340	+/-250	23.4%	+/-1.5
Child	3,601	+/-191	25.2%	+/-1.4
Other relatives	535	+/-170	3.7%	+/-1.2
Nonrelatives	665	+/-168	4.7%	+/-1.2
Unmarried partner	358	+/-113	2.5%	+/-0.8
MARITAL STATUS				
Males 15 years and over	6,734	+/-82	6,734	(X)
Never married	1,726	+/-215	25.6%	+/-3.2
Now married, except separated	3,595	+/-314	53.4%	+/-4.7
Separated	108	+/-58	1.6%	+/-0.9
Widowed	245	+/-69	3.6%	+/-1.0
Divorced	1,060	+/-197	15.7%	+/-2.9
Females 15 years and over	5,672	+/-83	5,672	(X)
Never married	961	+/-154	16.9%	+/-2.7
Now married, except separated	3,546	+/-218	62.5%	+/-3.5
Separated	97	+/-58	1.7%	+/-1.0
Widowed	452	+/-106	8.0%	+/-1.9
Divorced	616	+/-144	10.9%	+/-2.6
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	382	+/-133	382	(X)
Unmarried women (widowed, divorced, and never married)	160	+/-108	41.9%	+/-22.5
Per 1,000 unmarried women	130	+/-81	(X)	(X)
Per 1,000 women 15 to 50 years old	116	+/-41	(X)	(X)

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
Per 1,000 women 15 to 19 years old	55	+/-57	(X)	(X)
Per 1,000 women 20 to 34 years old	248	+/-93	(X)	(X)
Per 1,000 women 35 to 50 years old	30	+/-25	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	303	+/-131	303	(X)
Responsible for grandchildren	208	+/-126	68.6%	+/-21.2
Years responsible for grandchildren				
Less than 1 year	24	+/-38	7.9%	+/-12.8
1 or 2 years	8	+/-8	2.6%	+/-2.9
3 or 4 years	98	+/-87	32.3%	+/-25.1
5 or more years	78	+/-90	25.7%	+/-26.1
Number of grandparents responsible for own grandchildren under 18 years	208	+/-126	208	(X)
Who are female	97	+/-62	46.6%	+/-5.9
Who are married	208	+/-126	100.0%	+/-14.4
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	3,147	+/-192	3,147	(X)
Nursery school, preschool	227	+/-86	7.2%	+/-2.6
Kindergarten	137	+/-55	4.4%	+/-1.7
Elementary school (grades 1-8)	1,481	+/-119	47.1%	+/-4.0
High school (grades 9-12)	840	+/-112	26.7%	+/-3.0
College or graduate school	462	+/-102	14.7%	+/-2.9
EDUCATIONAL ATTAINMENT				
Population 25 years and over	10,705	+/-102	10,705	(X)
Less than 9th grade	357	+/-128	3.3%	+/-1.2
9th to 12th grade, no diploma	739	+/-179	6.9%	+/-1.7
High school graduate (includes equivalency)	4,101	+/-269	38.3%	+/-2.5
Some college, no degree	2,679	+/-211	25.0%	+/-1.9
Associate's degree	854	+/-159	8.0%	+/-1.5
Bachelor's degree	1,538	+/-203	14.4%	+/-1.9
Graduate or professional degree	437	+/-102	4.1%	+/-1.0
Percent high school graduate or higher	89.8%	+/-1.9	(X)	(X)
Percent bachelor's degree or higher	18.4%	+/-2.0	(X)	(X)
VETERAN STATUS				
Civilian population 18 years and over	11,890	+/-57	11,890	(X)
Civilian veterans	1,794	+/-219	15.1%	+/-1.8
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
Under 18 years	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
18 to 64 years	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
65 years and over	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
RESIDENCE 1 YEAR AGO				
Population 1 year and over	15,082	+/-79	15,082	(X)
Same house	12,032	+/-409	79.8%	+/-2.7
Different house in the U.S.	3,003	+/-403	19.9%	+/-2.7
Same county	1,384	+/-320	9.2%	+/-2.1
Different county	1,619	+/-351	10.7%	+/-2.3
Same state	689	+/-268	4.6%	+/-1.8
Different state	930	+/-297	6.2%	+/-2.0
Abroad	47	+/-68	0.3%	+/-0.5
PLACE OF BIRTH				
Total population	15,347	*****	15,347	(X)
Native	14,822	+/-163	96.6%	+/-1.1
Born in United States	14,726	+/-177	96.0%	+/-1.2
State of residence	6,274	+/-413	40.9%	+/-2.7
Different state	8,452	+/-411	55.1%	+/-2.7
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	96	+/-65	0.6%	+/-0.4
Foreign born	525	+/-163	3.4%	+/-1.1

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
U.S. CITIZENSHIP STATUS				
Foreign-born population	525	+/-163	525	(X)
Naturalized U.S. citizen	310	+/-145	59.0%	+/-19.1
Not a U.S. citizen	215	+/-113	41.0%	+/-19.1
YEAR OF ENTRY				
Population born outside the United States	621	+/-177	621	(X)
Native	96	+/-65	96	(X)
Entered 2000 or later	0	+/-119	0.0%	+/-28.0
Entered before 2000	96	+/-65	100.0%	+/-28.0
Foreign born	525	+/-163	525	(X)
Entered 2000 or later	79	+/-64	15.0%	+/-13.2
Entered before 2000	446	+/-177	85.0%	+/-13.2
WORLD REGION OF BIRTH OF FOREIGN BORN				
Foreign-born population, excluding population born at sea	525	+/-163	525	(X)
Europe	28	+/-24	5.3%	+/-5.3
Asia	89	+/-31	17.0%	+/-7.1
Africa	21	+/-32	4.0%	+/-6.5
Oceania	0	+/-119	0.0%	+/-6.0
Latin America	363	+/-167	69.1%	+/-14.1
Northern America	24	+/-27	4.6%	+/-5.4
LANGUAGE SPOKEN AT HOME				
Population 5 years and over	14,361	+/-25	14,361	(X)
English only	12,995	+/-296	90.5%	+/-2.1
Language other than English	1,366	+/-297	9.5%	+/-2.1
Speak English less than "very well"	427	+/-168	3.0%	+/-1.2
Spanish	1,157	+/-271	8.1%	+/-1.9
Speak English less than "very well"	383	+/-154	2.7%	+/-1.1

West Indian (excluding Hispanic origin groups)	0	+/-119	0.0%	+/-0.2

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the

lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).
- The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Because of contextual differences between the 2008-2009 disability data and disability data collected in prior years, the Census Bureau is unable to combine the 5 years of disability data in order to produce the multi-year estimate that would appear in this table. Multi-year estimates of disability status will become available once five consecutive years of data are collected. For more information about the differences between the 2008 and prior years' disability questions, see [Review of Changes to the Measurement of Disability in the 2008 ACS](#).
- Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).
- Workers include members of the Armed Forces and civilians who were at work last week.
- Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.
- Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2005, 2006 and 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 5 years of data are consistent in display and reflect the NAICS 2007 codes. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.
- Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the [ACS User Notes](#) for details.
- Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added in 2009 -- please see http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf for more details.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Carbon County, Wyoming

Selected Housing Characteristics: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Housing Characteristics	Estimate	Margin of Error	Percent	Margin of Error
HOUSING OCCUPANCY				
Total housing units	8,607	+/-187	8,607	(X)
Occupied housing units	6,156	+/-323	71.5%	+/-2.9
Vacant housing units	2,451	+/-232	28.5%	+/-2.9

\$750 to \$999	191	+/-82	14.7%	+/-5.9
\$1,000 to \$1,499	105	+/-75	8.1%	+/-5.5
\$1,500 or more	42	+/-55	3.2%	+/-4.1
Median (dollars)	561	+/-54	(X)	(X)
No rent paid	351	+/-111	(X)	(X)
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				
Occupied units paying rent (excluding units where GRAPI cannot be computed)	1,294	+/-212	1,294	(X)
Less than 15.0 percent	401	+/-125	31.0%	+/-8.6
15.0 to 19.9 percent	364	+/-129	28.1%	+/-8.6
20.0 to 24.9 percent	205	+/-83	15.8%	+/-6.2
25.0 to 29.9 percent	86	+/-63	6.6%	+/-4.7
30.0 to 34.9 percent	66	+/-45	5.1%	+/-3.4
35.0 percent or more	172	+/-90	13.3%	+/-6.5
Not computed	360	+/-112	(X)	(X)

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

•Caution should be used when comparing data for Number of Rooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see [Errata Note #54](#).

-Caution should be used when comparing data for Number of Bedrooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "0 bedrooms" category. For more information please see [Errata Note #54](#).

-The 2005-2009 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

-Caution should be used when comparing data for Telephone Service Availability between 2008 and 2009. A data collection error was identified for 2008 impacting the "no" category and underreporting those who did not have telephone service available. For more information please see [Errata Note #53](#).

-Caution should be used when comparing data for Occupants per Room between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see [Errata Note #54](#).

-In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

-In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

-In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household Income are valid values.

-The median gross rent excludes no cash renters.

-While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)

The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '****' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A

statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Carbon County, Wyoming

Population and Housing Narrative Profile: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

HOUSEHOLDS AND FAMILIES: In 2005-2009 there were 6,200 households in Carbon County. The average household size was 2.3 people.

Families made up 69 percent of the households in Carbon County. This figure includes both married-couple families (55 percent) and other families (14 percent). Nonfamily households made up 31 percent of all households in Carbon County. Most of the nonfamily households were people living alone, but some were composed of people living in households in which no one was related to the householder.

Source: American Community Survey, 2005-2009

DISABILITY: In Carbon County, among people at least five years old in 2005-2009, percent reported a disability. The likelihood of having a disability varied by age - from percent of people 5 to 15 years old, to percent of people 16 to 64 years old, and to percent of those 65 and older.

INDUSTRIES: In 2005-2009, for the employed population 16 years and older, the leading industries in Carbon County were Educational services, and health care, and social assistance, 16 percent, and Public administration, 11 percent.

Employment by Industry in Carbon County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

OCCUPATIONS AND TYPE OF EMPLOYER: Among the most common occupations were: Management, professional, and related occupations, 26 percent; Sales and office occupations, 22 percent; Service occupations, 21 percent; Construction, extraction, maintenance, and repair occupations, 15 percent; and Production, transportation, and material moving occupations, 15 percent. Sixty-eight percent of the people employed were Private wage and salary workers; 25 percent was Federal, state, or local government workers; and 7 percent was Self-employed in own not incorporated business workers.

TRAVEL TO WORK: Seventy-nine percent of Carbon County workers drove to work alone in 2005-2009, 10 percent carpoolled, less than 0.5 percent took public transportation, and 7 percent used other means. The remaining 4 percent worked at home. Among those who commuted to work, it took them on average 16.4 minutes to get to work.

INCOME: The median income of households in Carbon County was \$50,963. Eighty-six percent of the households received earnings and 12 percent received retirement income other than Social Security. Twenty-five percent of the households received Social Security. The average income from Social Security was \$14,524. These income sources are not mutually exclusive; that is, some households received income from more than one source.

POVERTY AND PARTICIPATION IN GOVERNMENT PROGRAMS: In 2005-2009, 10 percent of people were in poverty. Thirteen percent of related children under 18 were below the poverty level, compared with 13 percent of people 65 years old and over. Seven percent of all families and 25 percent of families with a female householder and no husband present had incomes below the poverty level.

Source: American Community Survey, 2005-2009

POPULATION OF Carbon County: In 2005-2009, Carbon County had a total population of 15,000 - 7,100 (46 percent) females and 8,300 (54 percent) males. The median age was 40.4 years. Twenty-three percent of the population was under 18 years and 12 percent was 65 years and older.

The Age Distribution of People in Carbon County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

For people reporting one race alone, 93 percent was White; 1 percent was Black or African American; 1 percent was American Indian and Alaska Native; 1 percent was Asian; less than 0.5 percent was Native Hawaiian and Other Pacific Islander, and 3 percent was Some other race. Two percent reported Two or more races. Fifteen percent of the people in Carbon County was Hispanic. Eighty-one percent of the people in Carbon County was White non-Hispanic. People of Hispanic origin may be of any race.

HOUSING CHARACTERISTICS: In 2005-2009, Carbon County had a total of 8,600 housing units, 28 percent of which were vacant. Of the total housing units, 76 percent was in single-unit structures, 12 percent was in multi-unit structures, and 13 percent was mobile homes. Thirteen percent of the housing units were built since 1990.

The Types of Housing Units in Carbon County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

OCCUPIED HOUSING UNIT CHARACTERISTICS: In 2005-2009, Carbon County had 6,200 occupied housing units - 4,500 (73 percent) owner occupied and 1,700 (27 percent) renter occupied. Five percent of the households did not have telephone service and 3 percent of the households did not have access to a car, truck, or van for private use. Multi Vehicle households were not rare. Thirty-five percent had two vehicles and another 36 percent had three or more.

HOUSING COSTS: The median monthly housing costs for mortgaged owners was \$1,014, nonmortgaged owners \$314, and renters \$561. Twenty-two percent of owners with mortgages, 9 percent of owners without mortgages, and 18 percent of renters in Carbon County spent 30 percent or more of household income on housing.
