SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2010-2014 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Carbon County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
<b>HOUSEHOLDS BY TYPE</b>				
Total households	6,161	+/-245	6,161	(X)
Family households (families)	4,034	+/-253	65.5%	+/-3.7
With own children under 18 years	1,654	+/-202	26.8%	+/-3.1
Married-couple family	3,241	+/-262	52.6%	+/-3.8
With own children under 18 years	1,170	+/-174	19.0%	+/-2.6
Male householder, no wife present, family	230	+/-94	3.7%	+/-1.5
With own children under 18 years	119	+/-71	1.9%	+/-1.2
Female householder, no husband present, family	563	+/-136	9.1%	+/-2.2
With own children under 18 years	365	+/-108	5.9%	+/-1.8
Nonfamily households	2,127	+/-258	34.5%	+/-3.7
Householder living alone	1,649	+/-214	26.8%	+/-3.2
65 years and over	509	+/-93	8.3%	+/-1.5
Households with one or more people under 18 years	1,827	+/-214	29.7%	+/-3.2
Households with one or more people 65 years and over	1,434	+/-81	23.3%	+/-1.4
Average household size	2.42	+/-0.08	(X)	(X)
Average family size	2.96	+/-0.13	(X)	(X)
<b>RELATIONSHIP</b>				
Population in households	14,886	+/-362	14,886	(X)
Householder	6,161	+/-245	41.4%	+/-1.5
Spouse	3,318	+/-249	22.3%	+/-1.6
Child	4,042	+/-268	27.2%	+/-1.7
Other relatives	563	+/-196	3.8%	+/-1.3
Nonrelatives	802	+/-190	5.4%	+/-1.2
Unmarried partner	402	+/-117	2.7%	+/-0.8
<b>MARITAL STATUS</b>				
Males 15 years and over	6,865	+/-89	6,865	(X)
Never married	1,811	+/-244	26.4%	+/-3.5
Now married, except separated	3,641	+/-291	53.0%	+/-4.3
Separated	167	+/-77	2.4%	+/-1.1

Subject	Carbon County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Widowed	206	+/-69	3.0%	+/-1.0
Divorced	1,040	+/-184	15.1%	+/-2.7
<b>Females 15 years and over</b>	5,821	+/-111	5,821	(X)
Never married	1,116	+/-151	19.2%	+/-2.6
Now married, except separated	3,302	+/-207	56.7%	+/-3.7
Separated	98	+/-50	1.7%	+/-0.9
Widowed	407	+/-69	7.0%	+/-1.2
Divorced	898	+/-189	15.4%	+/-3.1
<b>FERTILITY</b>				
Number of women 15 to 50 years old who had a birth in the past 12 months	188	+/-78	188	(X)
Unmarried women (widowed, divorced, and never married)	78	+/-54	41.5%	+/-23.8
Per 1,000 unmarried women	52	+/-35	(X)	(X)
Per 1,000 women 15 to 50 years old	57	+/-23	(X)	(X)
Per 1,000 women 15 to 19 years old	22	+/-25	(X)	(X)
Per 1,000 women 20 to 34 years old	129	+/-56	(X)	(X)
Per 1,000 women 35 to 50 years old	5	+/-8	(X)	(X)
<b>GRANDPARENTS</b>				
Number of grandparents living with own grandchildren under 18 years	243	+/-83	243	(X)
Responsible for grandchildren	142	+/-67	58.4%	+/-20.8
Years responsible for grandchildren				
Less than 1 year	43	+/-44	17.7%	+/-17.2
1 or 2 years	21	+/-26	8.6%	+/-11.1
3 or 4 years	27	+/-32	11.1%	+/-12.7
5 or more years	51	+/-36	21.0%	+/-14.4
Number of grandparents responsible for own grandchildren under 18 years	142	+/-67	142	(X)
Who are female	66	+/-37	46.5%	+/-15.5
Who are married	117	+/-63	82.4%	+/-18.5
<b>SCHOOL ENROLLMENT</b>				
Population 3 years and over enrolled in school	3,509	+/-182	3,509	(X)
Nursery school, preschool	304	+/-79	8.7%	+/-2.2
Kindergarten	236	+/-114	6.7%	+/-3.2
Elementary school (grades 1-8)	1,640	+/-108	46.7%	+/-3.8
High school (grades 9-12)	713	+/-72	20.3%	+/-2.0
College or graduate school	616	+/-141	17.6%	+/-3.4
<b>EDUCATIONAL ATTAINMENT</b>				
Population 25 years and over	10,754	+/-112	10,754	(X)
Less than 9th grade	386	+/-98	3.6%	+/-0.9
9th to 12th grade, no diploma	755	+/-190	7.0%	+/-1.7
High school graduate (includes equivalency)	3,871	+/-343	36.0%	+/-3.2
Some college, no degree	2,793	+/-275	26.0%	+/-2.6
Associate's degree	1,095	+/-201	10.2%	+/-1.9
Bachelor's degree	1,291	+/-230	12.0%	+/-2.1
Graduate or professional degree	563	+/-113	5.2%	+/-1.0
Percent high school graduate or higher	(X)	(X)	89.4%	+/-2.0
Percent bachelor's degree or higher	(X)	(X)	17.2%	+/-2.2
<b>VETERAN STATUS</b>				
Civilian population 18 years and over	12,119	+/-78	12,119	(X)
Civilian veterans	1,436	+/-188	11.8%	+/-1.6

Subject	Carbon County, Wyoming

With a computer	(X)	(X)	(X)	(X)
With a broadband Internet subscription	(X)	(X)	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Fertility data are not available for certain geographic areas due to problems with data collection. See Errata Note #92 for details.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes

when using multi-year data containing data from 2013.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2013 and later years are based on the 2012 revision of the NAICS. To allow for the creation of 2010-2014 tables, industry data in the multiyear files (2010-2014) were recoded to 2013 Census industry codes. We recommend using caution when comparing data coded using 2013 Census industry codes with data coded using Census industry codes prior to 2013. For more information on the Census industry code changes, please visit our website at <http://www.census.gov/people/io/methodology/>.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see [http://www.census.gov/hhes/www/hlthins/publications/coverage\\_edits\\_final.pdf](http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf) for more details. The corresponding 2008 data table in American FactFinder does not incorporate these edits and is therefore not comparable to this table in 2009, 2010, 2011, or 2012. Select geographies of 2008 data comparable to the 2009, 2010, 2011, and 2012 tables are accessible at <http://www.census.gov/hhes/www/hlthins/data/acs/2008/re-run.html>.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection. See Errata Note #93 for details.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval

or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Subject	Carbon County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Total housing units	8,560	+/-157	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
