SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2007-2011 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Natrona County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	29,850	+/-511	29,850	(X)
Family households (families)	19,767	+/-629	66.2%	+/-1.8
With own children under 18 years	8,474	+/-540	28.4%	+/-1.7
Married-couple family	14,955	+/-522	50.1%	+/-1.6
With own children under 18 years	5,719	+/-474	19.2%	+/-1.5
Male householder, no wife present, family	1,363	+/-248	4.6%	+/-0.8
With own children under 18 years	691	+/-191	2.3%	+/-0.6
Female householder, no husband present, family	3,449	+/-397	11.6%	+/-1.3
With own children under 18 years	2,064	+/-342	6.9%	+/-1.1
Nonfamily households	10,083	+/-557	33.8%	+/-1.8
Householder living alone	8,326	+/-492	27.9%	+/-1.6
65 years and over	2,660	+/-267	8.9%	+/-0.9
Households with one or more people under 18 years	9,424	+/-591	31.6%	+/-1.8
Households with one or more people 65 years and over	6,503	+/-219	21.8%	+/-0.8
Average household size	2.44	+/-0.04	(X)	(X)
Average family size	3.00	+/-0.07	(X)	(X)
RELATIONSHIP				
Population in households	72,980	+/-295	72,980	(X)
Householder	29,850	+/-511	40.9%	+/-0.7
Spouse	14,940	+/-520	20.5%	+/-0.7
Child	20,650	+/-698	28.3%	+/-1.0
Other relatives	3,849	+/-598	5.3%	+/-0.8
Nonrelatives	3,691	+/-451	5.1%	+/-0.6
Unmarried partner	2,072	+/-322	2.8%	+/-0.4
MARITAL STATUS				
Males 15 years and over	29,870	+/-113	29,870	(X)
Never married	8,866	+/-452	29.7%	+/-1.5
Now married, except separated	16,039	+/-564	53.7%	+/-1.9
Separated	360	+/-135	1.2%	+/-0.5
Widowed	805	+/-183	2.7%	+/-0.6
Divorced	3,800	+/-392	12.7%	+/-1.3
Females 15 years and over	29,778	+/-111	29,778	(X)
Never married	6,455	+/-371	21.7%	+/-1.2

Subject	Natrona County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Now married, except separated	15,503	+/-573	52.1%	+/-1.9
Separated	416	+/-145	1.4%	+/-0.5
Widowed	2,819	+/-272	9.5%	+/-0.9
Divorced	4,585	+/-438	15.4%	+/-1.5
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	773	+/-166	773	(X)
Unmarried women (widowed, divorced, and never married)	345	+/-128	44.6%	+/-13.2
Per 1,000 unmarried women	40	+/-15	(X)	(X)
Per 1,000 women 15 to 50 years old	44	+/-9	(X)	(X)
Per 1,000 women 15 to 19 years old	25	+/-20	(X)	(X)
Per 1,000 women 20 to 34 years old	76	+/-20	(X)	(X)
Per 1,000 women 35 to 50 years old	16	+/-8	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	1,571	+/-350	1,571	(X)
Responsible for grandchildren	1,032	+/-318	65.7%	+/-11.2
Years responsible for grandchildren				
Less than 1 year	362	+/-188	23.0%	+/-9.2
1 or 2 years	146	+/-95	9.3%	+/-5.5
3 or 4 years	231	+/-117	14.7%	+/-7.2
5 or more years	293	+/-130	18.7%	+/-7.3
Number of grandparents responsible for own grandchildren under 18 years	1,032	+/-318	1,032	(X)
Who are female	584	+/-173	56.6%	+/-6.4
Who are married	758	+/-283	73.4%	+/-9.4
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	19,223	+/-613	19,223	(X)
Nursery school, preschool	1,786	+/-295	9.3%	+/-1.4
Kindergarten	796	+/-201	4.1%	+/-1.1
Elementary school (grades 1-8)	7,683	+/-303	40.0%	+/-1.9
High school (grades 9-12)	4,178	+/-213	21.7%	+/-1.2
College or graduate school	4,780	+/-483	24.9%	+/-1.9
EDUCATIONAL ATTAINMENT				
Population 25 years and over	49,409	+/-141	49,409	(X)
Less than 9th grade	1,162	+/-253	2.4%	+/-0.5
9th to 12th grade, no diploma	2,759	+/-348	5.6%	+/-0.7
High school graduate (includes equivalency)	15,042	+/-803	30.4%	+/-1.6
Some college, no degree	14,132	+/-654	28.6%	+/-1.3
Associate's degree	5,635	+/-486	11.4%	+/-1.0
Bachelor's degree	7,131	+/-550	14.4%	+/-1.1
Graduate or professional degree	3,548	+/-406	7.2%	+/-0.8
Percent high school graduate or higher	(X)	(X)	92.1%	+/-0.9
Percent bachelor's degree or higher	(X)	(X)	21.6%	+/-1.3
VETERAN STATUS				
Civilian population 18 years and over	56,568	+/-52	56,568	(X)
Civilian veterans	6,256	+/-426	11.1%	+/-0.8
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
Under 18 years	(X)	(X)	(X)	(X)

West Indian (excluding Hispanic origin groups)	23	+/-29	0.0%	+/-0.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2007-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

18 years and over	(X)	(X)	7.8%	+/-1.0
18 to 64 years	(X)	(X)	7.9%	+/-1.1

Subject	Natrona County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
65 years and over	(X)	(X)	7.1%	+/-1.9
People in families	(X)	(X)	5.9%	+/-1.2
Unrelated individuals 15 years and over	(X)	(X)	18.8%	+/-2.3

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Census occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC). The Census occupation codes for 2010 and later years are based on the 2010 revision of the SOC. To allow for the creation of 2007-2011 and 2009-2011 tables, occupation data in the multiyear files (2007-2011 and 2009-2011) were recoded to 2011 Census occupation codes. We recommend using caution when comparing data coded using 2011 Census occupation codes with data coded using Census occupation codes prior to 2010. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/ioindex/>.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2007-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

\$1,000 to \$1,499	1,401	+/-250	16.3%	+/-2.7
\$1,500 or more	653	+/-187	7.6%	+/-2.2
Median (dollars)	731	+/-28	(X)	(X)
No rent paid	427	+/-149	(X)	(X)
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				

Subject	Natrona County, Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Occupied units paying rent (excluding units where GRAPI cannot be computed)	8,527	+/-470	8,527	(X)
Less than 15.0 percent	1,494	+/-220	17.5%	+/-2.5
15.0 to 19.9 percent	1,311	+/-262	15.4%	+/-2.8
20.0 to 24.9 percent	1,085	+/-254	12.7%	+/-2.8
25.0 to 29.9 percent	1,124	+/-221	13.2%	+/-2.6
30.0 to 34.9 percent	937	+/-243	11.0%	+/-2.8
35.0 percent or more	2,576	+/-337	30.2%	+/-3.6
Not computed	491	+/-147	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household income are valid values.

The 2007, 2008, 2009, 2010, and 2011 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

Median calculations for base table sourcing VAL, MHC, SMOC, and TAX should exclude zero values.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Two races excluding Some other race, and Three or more races	1,382	+/-247	1.9%	+/-0.3
Total housing units	33,434	+/-135	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
