SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2013-2017 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Subject	Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	230,237	+/-1,679	230,237	(X)
Family households (families)	149,097	+/-1,655	64.8%	+/-0.6
With own children of the householder under 18 years	63,793	+/-1,379	27.7%	+/-0.6
Married-couple family	119,141	+/-1,490	51.7%	+/-0.6
With own children of the householder under 18 years	45,570	+/-1,179	19.8%	+/-0.5
Male householder, no wife present, family	11,142	+/-784	4.8%	+/-0.3
With own children of the householder under 18 years	6,292	+/-546	2.7%	+/-0.2
Female householder, no husband present, family	18,814	+/-876	8.2%	+/-0.4
With own children of the householder under 18 years	11,931	+/-705	5.2%	+/-0.3
Nonfamily households	81,140	+/-1,604	35.2%	+/-0.6
Householder living alone	65,248	+/-1,578	28.3%	+/-0.6
65 years and over	23,643	+/-827	10.3%	+/-0.3
Households with one or more people under 18 years	69,356	+/-1,399	30.1%	+/-0.6
Households with one or more people 65 years and over	60,078	+/-606	26.1%	+/-0.3
Average household size	2.47	+/-0.02	(X)	(X)
Average family size	3.03	+/-0.03	(X)	(X)
RELATIONSHIP				
Population in households	569,009	*****	569,009	(X)
Householder	230,237	+/-1,679	40.5%	+/-0.3
Spouse	118,909	+/-1,641	20.9%	+/-0.3
Child	158,537	+/-2,063	27.9%	+/-0.4
Other relatives	25,451	+/-1,373	4.5%	+/-0.2
Nonrelatives	35,875	+/-1,577	6.3%	+/-0.3
Unmarried partner	14,998	+/-1,062	2.6%	+/-0.2
MARITAL STATUS				

Subject	Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Males 15 years and over	238,104	+/-645	238,104	(X)
Never married	72,713	+/-1,334	30.5%	+/-0.5
Now married, except separated	127,039	+/-1,601	53.4%	+/-0.7
Separated	3,170	+/-496	1.3%	+/-0.2
Widowed	6,070	+/-517	2.5%	+/-0.2
Divorced	29,112	+/-1,218	12.2%	+/-0.5
Females 15 years and over	228,673	+/-542	228,673	(X)
Never married	53,320	+/-1,027	23.3%	+/-0.4
Now married, except separated	122,957	+/-1,635	53.8%	+/-0.7
Separated	3,193	+/-409	1.4%	+/-0.2
Widowed	19,011	+/-595	8.3%	+/-0.3
Divorced	30,192	+/-1,270	13.2%	+/-0.6
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	7,365	+/-602	7,365	(X)
Unmarried women (widowed, divorced, and never married)	2,163	+/-379	29.4%	+/-4.0
Per 1,000 unmarried women	34	+/-6	(X)	(X)
Per 1,000 women 15 to 50 years old	57	+/-5	(X)	(X)
Per 1,000 women 15 to 19 years old	21	+/-7	(X)	(X)
Per 1,000 women 20 to 34 years old	103	+/-9	(X)	(X)
Per 1,000 women 35 to 50 years old	19	+/-5	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	8,873	+/-705	8,873	(X)
Grandparents responsible for grandchildren	4,435	+/-510	50.0%	+/-4.3
Years responsible for grandchildren				
Less than 1 year	946	+/-282	10.7%	+/-3.0
1 or 2 years	1,144	+/-356	12.9%	+/-3.7
3 or 4 years	639	+/-182	7.2%	+/-2.1
5 or more years	1,706	+/-333	19.2%	+/-3.7
Number of grandparents responsible for own grandchildren under 18 years	4,435	+/-510	4,435	(X)
Who are female	2,513	+/-284	56.7%	+/-2.2
Who are married	3,455	+/-513	77.9%	+/-4.7
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	147,269	+/-1,658	147,269	(X)
Nursery school, preschool	8,827	+/-576	6.0%	+/-0.4
Kindergarten	7,701	+/-622	5.2%	+/-0.4
Elementary school (grades 1-8)	63,434	+/-975	43.1%	+/-0.7
High school (grades 9-12)	28,578	+/-746	19.4%	+/-0.5
College or graduate school	38,729	+/-1,311	26.3%	+/-0.7
EDUCATIONAL ATTAINMENT				
Population 25 years and over	388,617	+/-675	388,617	(X)
Less than 9th grade	7,166	+/-616	1.8%	+/-0.2
9th to 12th grade, no diploma	20,964	+/-981	5.4%	+/-0.3
High school graduate (includes equivalency)	111,594	+/-2,308	28.7%	+/-0.6
Some college, no degree	102,720	+/-2,289	26.4%	+/-0.6
Associate's degree	42,219	+/-1,369	10.9%	+/-0.4
Bachelor's degree	67,798	+/-1,640	17.4%	+/-0.4
Graduate or professional degree	36,156	+/-1,235	9.3%	+/-0.3
Percent high school graduate or higher	(X)	(X)	92.8%	+/-0.3
Percent bachelor's degree or higher	(X)	(X)	26.7%	+/-0.5

Subject	Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
VETERAN STATUS				
Civilian population 18 years and over	442,186	+/-558	442,186	(X)
Civilian veterans	46,540	+/-1,263	10.5%	+/-0.3
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	573,470	+/-313	573,470	(X)
With a disability	74,131	+/-1,764	12.9%	+/-0.3
Under 18 years				
With a disability	5,533	+/-505	4.0%	+/-0.4
18 to 64 years				
With a disability	38,698	+/-1,348	10.9%	+/-0.4

COMPUTERS AND INTERNET USE				
Total households	230,237	+/-1,679	230,237	(X)
With a computer	206,744	+/-1,730	89.8%	+/-0.4
With a broadband Internet subscription	182,316	+/-1,515	79.2%	+/-0.5

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using 2013 data or multi-year data containing data from 2013. For more information, see: Language User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

Data about computer and Internet use were collected by asking respondents to select "Yes" or "No" to each type of computer and each type of Internet subscription. Therefore, respondents were able to select more than one type of computer and more than one type of Internet subscription.

The category "with a broadband Internet subscription" refers to those who said "Yes" to at least one of the following types of Internet subscriptions: Broadband such as cable, fiber optic, or DSL; a cellular data plan; satellite; or a fixed wireless subscription.

An Internet "subscription" refers to a type of service that someone pays for to access the Internet such as a cellular data plan, broadband such as cable, fiber optic or DSL, or other type of service. This will normally refer to a service that someone is billed for directly for Internet alone or sometimes as part of a bundle.

"With a computer" includes those who said "Yes" to at least one of the following types of computers: Desktop or laptop; smartphone; tablet or other portable wireless computer; or some other type of computer.

In 2016, changes were made to the computer and Internet use questions, involving the wording as well as the response options. A crosswalk was used to map pre-2016 data to the post-2016 categories, enabling creation of 5-year data. For more detailed information about the 2016 changes, see the 2016 American Community Survey Content Test Report for Computer and Internet Use located at <https://www.census.gov/programs-surveys/acs/methodology/content-test.htm> or the user note regarding changes in the 2016 questions located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html>. For more detailed information about the crosswalk, see the user note regarding the crosswalk located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html>.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "Health Insurance Table Updates" for further details.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-l' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+u' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

2013-2017 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

A processing error was found in the Year Structure Built estimates since data year 2008. For more information, please see the errata note #110.

25.0 to 29.9 percent	2,035	+/-288	3.1%	+/-0.4
30.0 to 34.9 percent	1,475	+/-272	2.2%	+/-0.4
35.0 percent or more	5,512	+/-455	8.3%	+/-0.7
Not computed	604	+/-149	(X)	(X)
GROSS RENT				
Occupied units paying rent	64,331	+/-2,048	64,331	(X)
Less than \$500	8,093	+/-636	12.6%	+/-0.9
\$500 to \$999	34,963	+/-1,245	54.3%	+/-1.4
\$1,000 to \$1,499	15,269	+/-993	23.7%	+/-1.3
\$1,500 to \$1,999	4,694	+/-531	7.3%	+/-0.8
\$2,000 to \$2,499	807	+/-238	1.3%	+/-0.4
\$2,500 to \$2,999	195	+/-102	0.3%	+/-0.2
\$3,000 or more	310	+/-158	0.5%	+/-0.2
Median (dollars)	828	+/-11	(X)	(X)
No rent paid	6,570	+/-595	(X)	(X)
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				
Occupied units paying rent (excluding units where GRAPI cannot be computed)	63,504	+/-1,987	63,504	(X)
Less than 15.0 percent	11,839	+/-869	18.6%	+/-1.2
15.0 to 19.9 percent	9,613	+/-725	15.1%	+/-1.1
20.0 to 24.9 percent	8,773	+/-731	13.8%	+/-1.1
25.0 to 29.9 percent	7,363	+/-669	11.6%	+/-1.0
30.0 to 34.9 percent	5,831	+/-618	9.2%	+/-0.9
35.0 percent or more	20,085	+/-1,072	31.6%	+/-1.4
Not computed	7,397	+/-588	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection of this question that occurred in 2015 and 2016. Both ACS 1-year and ACS 5-year files were affected. It may take several years in the ACS 5-year files until the estimates are available for the geographic areas affected.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

DP05

ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2013-2017 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Subject	Wyoming			
	Estimate	Margin of Error	Percent	Percent Margin of Error
SEX AND AGE				
Total population	583,200	*****	583,200	(X)
Male	298,301	+/-673	51.1%	+/-0.1
Female	284,899	+/-673	48.9%	+/-0.1
Sex ratio (males per 100 females)	104.7	+/-0.5	(X)	(X)
Under 5 years	37,457	+/-475	6.4%	+/-0.1
5 to 9 years	40,669	+/-1,118	7.0%	+/-0.2
10 to 14 years	38,297	+/-1,045	6.6%	+/-0.2
15 to 19 years	36,824	+/-613	6.3%	+/-0.1
20 to 24 years	41,336	+/-641	7.1%	+/-0.1
25 to 34 years	81,398	+/-657	14.0%	+/-0.1
35 to 44 years	71,088	+/-574	12.2%	+/-0.1
45 to 54 years	70,920	+/-554	12.2%	+/-0.1
55 to 59 years	41,627	+/-965	7.1%	+/-0.2
60 to 64 years	39,345	+/-1,001	6.7%	+/-0.2
65 to 74 years	50,406	+/-239	8.6%	+/-0.1
75 to 84 years	24,025	+/-578	4.1%	+/-0.1
85 years and over	9,808	+/-532	1.7%	+/-0.1

Citizen, 18 and over population	432,814	+/-1,077	432,814	(X)
Male	220,257	+/-797	50.9%	+/-0.1
Female	212,557	+/-683	49.1%	+/-0.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
