

Sweetwater County, Wyoming

Selected Social Characteristics in the United States: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
HOUSEHOLDS BY TYPE				
Total households	15,495	+/-329	15,495	(X)
Family households (families)	11,150	+/-387	72.0%	+/-2.1
With own children under 18 years	5,646	+/-349	36.4%	+/-2.2
Married-couple family	8,781	+/-387	56.7%	+/-2.4
With own children under 18 years	4,043	+/-297	26.1%	+/-1.9
Male householder, no wife present, family	1,055	+/-236	6.8%	+/-1.5
With own children under 18 years	669	+/-187	4.3%	+/-1.2
Female householder, no husband present, family	1,314	+/-232	8.5%	+/-1.5
With own children under 18 years	934	+/-227	6.0%	+/-1.5
Nonfamily households	4,345	+/-355	28.0%	+/-2.1
Householder living alone	3,298	+/-356	21.3%	+/-2.2
65 years and over	1,031	+/-181	6.7%	+/-1.2
Households with one or more people under 18 years	6,141	+/-382	39.6%	+/-2.4
Households with one or more people 65 years and over	2,465	+/-159	15.9%	+/-1.0
Average household size	2.47	+/-0.05	(X)	(X)
Average family size	2.87	+/-0.08	(X)	(X)
RELATIONSHIP				
Population in households	38,322	+/-399	38,322	(X)
Householder	15,495	+/-329	40.4%	+/-0.8
Spouse	8,754	+/-378	22.8%	+/-1.0
Child	10,993	+/-444	28.7%	+/-1.1
Other relatives	1,106	+/-284	2.9%	+/-0.7
Nonrelatives	1,974	+/-391	5.2%	+/-1.0
Unmarried partner	1,377	+/-250	3.6%	+/-0.6
MARITAL STATUS				
Males 15 years and over	15,364	+/-156	15,364	(X)
Never married	4,008	+/-270	26.1%	+/-1.7
Now married, except separated	9,059	+/-379	59.0%	+/-2.4
Separated	194	+/-84	1.3%	+/-0.5
Widowed	317	+/-89	2.1%	+/-0.6
Divorced	1,786	+/-271	11.6%	+/-1.8
Females 15 years and over	14,948	+/-143	14,948	(X)
Never married	2,778	+/-290	18.6%	+/-1.9
Now married, except separated	9,130	+/-450	61.1%	+/-3.0
Separated	244	+/-115	1.6%	+/-0.8
Widowed	1,168	+/-178	7.8%	+/-1.2
Divorced	1,628	+/-289	10.9%	+/-1.9
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	745	+/-182	745	(X)
Unmarried women (widowed, divorced, and never married)	95	+/-66	12.8%	+/-8.9
Per 1,000 unmarried women	25	+/-17	(X)	(X)
Per 1,000 women 15 to 50 years old	74	+/-18	(X)	(X)

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
Per 1,000 women 15 to 19 years old	39	+/-38	(X)	(X)
Per 1,000 women 20 to 34 years old	145	+/-37	(X)	(X)
Per 1,000 women 35 to 50 years old	16	+/-17	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	635	+/-228	635	(X)
Responsible for grandchildren	323	+/-154	50.9%	+/-14.2
Years responsible for grandchildren				
Less than 1 year	51	+/-63	8.0%	+/-8.7
1 or 2 years	79	+/-59	12.4%	+/-8.1
3 or 4 years	84	+/-75	13.2%	+/-10.3
5 or more years	109	+/-73	17.2%	+/-11.0
Number of grandparents responsible for own grandchildren under 18 years	323	+/-154	323	(X)
Who are female	168	+/-78	52.0%	+/-6.0
Who are married	271	+/-147	83.9%	+/-13.3
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	10,120	+/-382	10,120	(X)
Nursery school, preschool	1,087	+/-224	10.7%	+/-2.1
Kindergarten	416	+/-116	4.1%	+/-1.2
Elementary school (grades 1-8)	4,124	+/-240	40.8%	+/-2.7
High school (grades 9-12)	2,185	+/-189	21.6%	+/-2.0
College or graduate school	2,308	+/-378	22.8%	+/-3.2
EDUCATIONAL ATTAINMENT				
Population 25 years and over	24,430	+/-120	24,430	(X)
Less than 9th grade	858	+/-217	3.5%	+/-0.9
9th to 12th grade, no diploma	1,712	+/-240	7.0%	+/-1.0
High school graduate (includes equivalency)	8,333	+/-479	34.1%	+/-2.0
Some college, no degree	6,834	+/-527	28.0%	+/-2.1
Associate's degree	2,567	+/-251	10.5%	+/-1.0
Bachelor's degree	2,981	+/-350	12.2%	+/-1.4
Graduate or professional degree	1,145	+/-208	4.7%	+/-0.8
Percent high school graduate or higher	89.5%	+/-1.4	(X)	(X)
Percent bachelor's degree or higher	16.9%	+/-1.6	(X)	(X)
VETERAN STATUS				
Civilian population 18 years and over	28,549	+/-112	28,549	(X)
Civilian veterans	3,734	+/-298	13.1%	+/-1.0
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
Under 18 years	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
18 to 64 years	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
65 years and over	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
RESIDENCE 1 YEAR AGO				
Population 1 year and over	38,535	+/-129	38,535	(X)
Same house	30,334	+/-954	78.7%	+/-2.5
Different house in the U.S.	8,008	+/-938	20.8%	+/-2.4
Same county	4,818	+/-785	12.5%	+/-2.0
Different county	3,190	+/-574	8.3%	+/-1.5
Same state	1,004	+/-409	2.6%	+/-1.1
Different state	2,186	+/-471	5.7%	+/-1.2
Abroad	193	+/-115	0.5%	+/-0.3
PLACE OF BIRTH				
Total population	39,140	*****	39,140	(X)
Native	37,264	+/-346	95.2%	+/-0.9
Born in United States	37,123	+/-351	94.8%	+/-0.9
State of residence	16,789	+/-746	42.9%	+/-1.9
Different state	20,334	+/-655	52.0%	+/-1.7
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	141	+/-64	0.4%	+/-0.2
Foreign born	1,876	+/-346	4.8%	+/-0.9

Selected Social Characteristics in the United States	Estimate	Margin of Error	Percent	Margin of Error
U.S. CITIZENSHIP STATUS				
Foreign-born population	1,876	+/-346	1,876	(X)
Naturalized U.S. citizen	311	+/-125	16.6%	+/-7.2
Not a U.S. citizen	1,565	+/-360	83.4%	+/-7.2
YEAR OF ENTRY				
Population born outside the United States	2,017	+/-351	2,017	(X)
Native	141	+/-64	141	(X)
Entered 2000 or later	13	+/-22	9.2%	+/-15.0
Entered before 2000	128	+/-60	90.8%	+/-15.0
Foreign born	1,876	+/-346	1,876	(X)
Entered 2000 or later	1,093	+/-321	58.3%	+/-8.9
Entered before 2000	783	+/-153	41.7%	+/-8.9
WORLD REGION OF BIRTH OF FOREIGN BORN				
Foreign-born population, excluding population born at sea	1,876	+/-346	1,876	(X)

West Indian (excluding Hispanic origin groups)	0	+/-119	0.0%	+/-0.1

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the

lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).
- The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Because of contextual differences between the 2008-2009 disability data and disability data collected in prior years, the Census Bureau is unable to combine the 5 years of disability data in order to produce the multi-year estimate that would appear in this table. Multi-year estimates of disability status will become available once five consecutive years of data are collected. For more information about the differences between the 2008 and prior years' disability questions, see [Review of Changes to the Measurement of Disability in the 2008 ACS](#).
- Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).
- Workers include members of the Armed Forces and civilians who were at work last week.
- Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.
- Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2005, 2006 and 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 5 years of data are consistent in display and reflect the NAICS 2007 codes. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.
- Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the [ACS User Notes](#) for details.
- Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added in 2009 -- please see http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf for more details.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

•Caution should be used when comparing data for Number of Rooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see [Errata Note #54](#).

- Caution should be used when comparing data for Number of Bedrooms between 2008 and 2009. A data collection error was identified for 2008 impacting the "0 bedrooms" category. For more information please see [Errata Note #54](#).
- The 2005-2009 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.
- Caution should be used when comparing data for Telephone Service Availability between 2008 and 2009. A data collection error was identified for 2008 impacting the "no" category and underreporting those who did not have telephone service available. For more information please see [Errata Note #53](#).
- Caution should be used when comparing data for Occupants per Room between 2008 and 2009. A data collection error was identified for 2008 impacting the "1 room" category. For more information please see [Errata Note #54](#).
- In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.
- In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.
- In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household Income are valid values.
- The median gross rent excludes no cash renters.
- While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
- Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2005-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

-For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)

-The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

-While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '****' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A

statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Sweetwater County, Wyoming

Population and Housing Narrative Profile: 2005-2009

Data Set: 2005-2009 American Community Survey 5-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

HOUSEHOLDS AND FAMILIES: In 2005-2009 there were 15,000 households in Sweetwater County. The average household size was 2.5 people.

Families made up 72 percent of the households in Sweetwater County. This figure includes both married-couple families (57 percent) and other families (15 percent). Nonfamily households made up 28 percent of all households in Sweetwater County. Most of the nonfamily households were people living alone, but some were composed of people living in households in which no one was related to the householder.

Source: American Community Survey, 2005-2009

DISABILITY: In Sweetwater County, among people at least five years old in 2005-2009, percent reported a disability. The likelihood of having a disability varied by age - from percent of people 5 to 15 years old, to percent of people 16 to 64 years old, and to percent of those 65 and older.

INDUSTRIES: In 2005-2009, for the employed population 16 years and older, the leading industries in Sweetwater County were Agriculture, forestry, fishing and hunting, and mining, 19 percent, and Educational services, and health care, and social assistance, 18 percent.

Employment by Industry in Sweetwater County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

OCCUPATIONS AND TYPE OF EMPLOYER: Among the most common occupations were: Management, professional, and related occupations, 24 percent; Sales and office occupations, 22 percent; Construction, extraction, maintenance, and repair occupations, 19 percent; Production, transportation, and material moving occupations, 18 percent; and Service occupations, 17 percent. Seventy-seven percent of the people employed were Private wage and salary workers; 17 percent was Federal, state, or local government workers; and 5 percent was Self-employed in own not incorporated business workers.

TRAVEL TO WORK: Seventy-three percent of Sweetwater County workers drove to work alone in 2005-2009, 19 percent carpoled, 3 percent took public transportation, and 3 percent used other means. The remaining 3 percent worked at home. Among those who commuted to work, it took them on average 21.9 minutes to get to work.

INCOME: The median income of households in Sweetwater County was \$67,210. Eighty-eight percent of the households received earnings and 16 percent received retirement income other than Social Security. Twenty percent of the households received Social Security. The average income from Social Security was \$15,297. These income sources are not mutually exclusive; that is, some households received income from more than one source.

POVERTY AND PARTICIPATION IN GOVERNMENT PROGRAMS: In 2005-2009, 7 percent of people were in poverty. Nine percent of related children under 18 were below the poverty level, compared with 6 percent of people 65 years old and over. Six percent of all families and 29 percent of families with a female householder and no husband present had incomes below the poverty level.

Source: American Community Survey, 2005-2009

POPULATION OF Sweetwater County: In 2005-2009, Sweetwater County had a total population of 39,000 - 19,000 (49 percent) females and 20,000 (51 percent) males. The median age was 33.5 years. Twenty-seven percent of the population was under 18 years and 8 percent was 65 years and older.

The Age Distribution of People in Sweetwater County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

For people reporting one race alone, 92 percent was White; 1 percent was Black or African American; less than 0.5 percent was American Indian and Alaska Native; 1 percent was Asian; less than 0.5 percent was Native Hawaiian and Other Pacific Islander, and 2 percent was Some other race. Four percent reported Two or more races. Twelve percent of the people in Sweetwater County was Hispanic. Eighty-four percent of the people in Sweetwater County was White non-Hispanic. People of Hispanic origin may be of any race.

HOUSING CHARACTERISTICS: In 2005-2009, Sweetwater County had a total of 17,000 housing units, 8 percent of which were vacant. Of the total housing units, 62 percent was in single-unit structures, 14 percent was in multi-unit structures, and 24 percent was mobile homes. Twenty percent of the housing units were built since 1990.

The Types of Housing Units in Sweetwater County, Wyoming in 2005-2009

Source: American Community Survey, 2005-2009

OCCUPIED HOUSING UNIT CHARACTERISTICS: In 2005-2009, Sweetwater County had 15,000 occupied housing units - 12,000 (74 percent) owner occupied and 4,000 (26 percent) renter occupied. Six percent of the households did not have telephone service and 4 percent of the households did not have access to a car, truck, or van for private use. Multi Vehicle households were not rare. Thirty-seven percent had two vehicles and another 39 percent had three or more.

HOUSING COSTS: The median monthly housing costs for mortgaged owners was \$1,237, nonmortgaged owners \$329, and renters \$753. Twenty percent of owners with mortgages, 7 percent of owners without mortgages, and 22 percent of renters in Sweetwater County spent 30 percent or more of household income on housing.
