Subject: Wyoming Revenue Forecast

The Consensus Revenue Estimating Group (CREG) met on January 14, 2010. The attached revenue report provides the revised revenue forecasts and associated assumptions which resulted from that meeting. Please note the forecast covers FY 2010 through FY 2014.

Revisions were made to just two categories of revenue in this January report: sales and use tax revenues and investment income. As a consequence of these revisions, General Fund and Budget Reserve Account revenue projections over the FY 2009-10 and 2011-12 biennia have been lowered only slightly when compared to October 2009 estimates. Projections of income from all other sources were left unchanged from the October 2009 CREG forecast.

General Fund and Budget Reserve Account Revenue Comparisons

The assumptions that drive severance tax and federal mineral royalty projections were left unchanged from October 2009 levels, as were the related projections of assessed valuation. *Please refer to the October 2009 forecast for detailed minerals price and production assumptions.*

Sales and use tax estimates were lowered slightly through the forecast period in anticipation of continued widespread job losses and a lowered rate of personal income growth. This revision resulted in a \$6.3 million decrease to the General Fund FY 2009-10 forecast, a \$5.6 million decrease in the FY 2011-12 forecast, and a \$22.4 million decrease in the FY 2013-14 forecast.

Offsetting the decreased sales and use tax projections, actual, realized to-date investment income from the pooled income category is expected to add \$10.0 million to the General Fund bottom line. The net effect on the General Fund/Budget Reserve Account for the FY 2009-10 and FY 2011-12 biennia, in combination, is a \$1.9 million reduction.

- (1) Chapter 14, 2000 Session Laws established an investment income spending policy for the Permanent Wyoming Mineral Trust Fund (PWMTF). Investment earnings from the PWMTF in excess of the spending policy are appropriated from the General Fund to the Permanent Wyoming Mineral Trust Fund Reserve Account (PWMTFRA). The PWMTF income amounts shown in the table above reflect total investment earnings from the PWMTF, including the investment earnings in excess of the spending policy amounts appropriated to the PWMTFRA. PWMTF income exceeded the spending policy amount by \$10,598,474 in FY04, by \$19,485,440 in FY06, by \$32,869,204 in FY07, and by \$185,102,897 in FY08. PWMTF income is projected to be less than the spending policy amount in FY10-FY14.
- (2) The State Treasurer implemented an accounting change in April 2009 (with an effective date of July 1, 2008) which directs interest and dividend income to be distributed to the General Fund on a monthly basis. Under this new policy, capital gains and losses will be held until the end of the fiscal year, at which time capital gains in excess of capital losses will be distributed. If capital losses exceed capital gains, the net capital loss will be carried forward until such time it is offset by future capital gains.
- (3) This category includes all 1200 series tax revenue, except sales and use taxes; Inheritance Tax (revenue code 1401); License & Permit Fees (2000 revenue series); Property & Money Use Fees (4000 revenue series, excluding investment income); and Non-Revenue Receipts (9000 revenue series). The Inheritance Tax total for FY94 included \$21.0 million in revenue from a single estate settlement, and in FY00 it totaled \$50.8 million.
- (4) Inheritance Taxes are included at diminishing rates beginning in FY 2004, due to federal legislation. No Inheritance tax is forecasted throughout the forecast period.
- (5) Chapter 52, 2003 Session Laws increased cigarette taxes by \$.48 per pack, and directed this increase to the General Fund until June 30, 2006. Chapter 22, 2005 Session Laws removed the June 30, 2006 sunset date, thereby permanently directing this tax increase to the General Fund.

- (1) Chapter 14, 2000 Session Laws established an investment income spending policy for the Permanent Wyoming Mineral Trust Fund (PWMTF). Investment earnings from the PWMTF in excess of the spending policy are appropriated from the General Fund to the Permanent Wyoming Mineral Trust Fund Reserve Account (PWMTFRA). The PWMTF income amounts shown in the table above reflect total investment earnings from the PWMTF, including the investment earnings in excess of the spending policy amounts appropriated to the PWMTFRA. PWMTF income exceeded the spending policy amount by \$10,598,474 in FY04, by \$19,485,440 in FY06, by \$32,869,204 in FY07, and by \$185,102,897 in FY08. PWMTF income is projected to be less than the spending policy amount in FY10-FY14.
- (2) The State Treasurer implemented an accounting change in April 2009 (with an effective date of July 1, 2008) which directs interest and dividend income to be distributed to the General Fund on a monthly basis. Under this new policy, capital gains and losses will be held until the end of the fiscal year, at which time capital gains in excess of capital losses will be distributed. If capital losses exceed capital gains, the net capital loss will be carried forward until such time it is offset by future capital gains.
- (3) This category includes all 1200 series tax revenue, except sales and use taxes; Inheritance Tax (revenue code 1401); License & Permit Fees (2000 revenue series); Property & Money Use Fees (4000 revenue series, excluding investment income); and Non-Revenue Receipts (9000 revenue series). The Inheritance Tax total for FY94 included \$21.0 million in revenue from a single estate settlement, and in FY00 it totaled \$50.8 million.
- (4) Inheritance Taxes are included at diminishing rates beginning in FY 2004, due to federal legislation. No Inheritance tax is forecasted throughout the forecast period.
- (5) Chapter 52, 2003 Sessions Laws increased cigarette taxes by \$.48 per pack, and directed this increase to the General Fund until June 30, 2006. Chapter 22, 2005 Session Laws removed the June 30, 2006 sunset date, thereby permanently directing this tax increase to the General Fund.

- (1) Price is the average gross sales price for all Wyoming oil production. Production is the total volume of all oil produced in Wyoming, including stripper, tertiary, other oil, and lease condensate.
- (2) Price is the average gross sales price for all Wyoming natural gas production. Production is the total volume of all gas produced in Wyoming, including methane, carbon dioxide, natural gas liquids, and all other related products.
- (3) Price is the average gross sales price for all Wyoming coal production. Production is the total volume of all coal produced in Wyoming, including surface and underground.
- (4) Price is the average gross sales price for all Wyoming trona production. Production is the total volume of all trona ore produced in Wyoming.

| | | | | | | | | | | | | | | | |

- (1) Chapter 62, 2002 Session Laws made permanent the diversion of PWMTF revenues to the Severance Tax Distribution Account, and repealed the language of Chapter 99, 2000 Session Laws requiring a larger proportion of coal bed methane revenues to be deposited into the PWMTF. Chapter 80, 2005 Session Laws diverts additional severance taxes (equal to two-thirds of the PWMTF distribution required by Wyoming Constitution) from the Severance Tax Distribution Account to the PWMTF, beginning in FY06. One-half of the additional severance taxes to the PWMTF (\$54,750,000) will be diverted to the PWMTF Reserve Account in FY10.
- (2) Chapter 163, 2005 Session Laws creates a severance tax distribution to Water Development Account III of 0.5 percent and decreases the distribution to Local Government Capital Construction from 2.83 percent to 2.33 percent, beginning in FY06.
- (3) The drop in revenues to these accounts in FY94 was due to the expiration of the Capital Facilities Tax on coal and trona.
- (4) In FY99 and FY00, mineral severance taxes and federal mineral royalties were diverted from the Highway Fund to the School Foundation Program until \$20 million was received. This revenue diversion from the Highway fund was offset with addition fuel tax revenue. In FY01 and FY02, the diversion of revenues from these sources continued, however, the amount was not limited to a fixed dollar amount, but was a dollar for dollar swap in the amount raised by the fuel tax.
- (5) Beginning in FY92, the totals shown in this column have included diversions from the Highway Fund to the LUST accounts (Financial Responsibility and Corrective Action accounts). Amounts from \$12.1 to \$12.8 million per year are projected to be diverted to these accounts in FY10 through FY14.
- (6) This column includes \$5.5 million of Municipal Mineral Trust Fund monies in FY 2001. These funds were diverted from the cities & towns portion of severance taxes when the total severance taxes to those entities exceeded \$24 million in any year, under the distribution formulas in place prior to Chapter 209, 2001 Session Laws.
- (7) FY98 revenues include \$8.0 million in previously protested severance taxes on coal from prior production years. FY06 and FY07 revenues include \$19.5 million and \$13.3 million respectively in previously protested severance taxes on natural gas from prior production years.

^{(1) -} Chapter 62, 2002 Session Laws made permanent the diversion of PWMTF revenues to the Severance Tax Distribution Account, and repealed the language of Chapter 99, 2000 Session Laws requiring a larger proportion of coal bed methane revenues to be deposited into the PWMTF. Chapter 80, 2005 Session Laws diverts additional severance taxes (equal to two-thirds of the PWMTF distribution required by Wyoming Constitution) from the Severance Tax Distribution Account to the PWMTF, beginning in FY06. One-half of the additional severance taxes to the PWMTF (\$54,750,000) will be diverted to the PWMTF Reserve Account in FY10.

^{(2) -} Chapter 163, 2005 Session Laws creates a severance tax distribution to Water Development Account III of 0.5 percent and decreases the distribution to Local Government Capital Construction from 2.83 percent to 2.33 percent, beginning in FY06.

^{(3) -} The drop in revenues to these accounts in FY94 was due to the expiration of the Capital Facilities Tax on coal and trona.

^{(4) -} In FY99 and FY00, mineral severance taxes and federal mineral royalties were diverted from the Highway Fund to the School Foundation Program until \$20 million was received. This revenue diversion from the Highway fund was offset with additional fuel tax revenue. In FY01 and FY02, the diversion of revenues from these sources continued, however, the amount was not limited to a fixed dollar amount, but was a dollar for dollar swap in the amount raised by the fuel tax.

^{(5) -} Beginning in FY92, the totals shown in this column have included diversions from the Highway Fund to the LUST accounts (Financial Responsibility and Corrective Action accounts). Amounts from \$12.1 to \$12.8 million per year are projected to be diverted to these accounts in FY10 through FY14.

^{(6) -} This column includes \$5.5 million of Municipal Mineral Trust Fund monies in FY 2001. These funds were diverted from the cities & towns portion of severance taxes when the total severance taxes to those entities exceeded \$24 million in any year, under the distribution formulas in place prior to Chapter 209, 2001 Session Laws.

^{(7) -} FY98 revenues include \$8.0 million in previously protested severance taxes on coal from prior production years. FY06 and FY07 revenues include \$19.5 million and \$13.3 million respectively in previously protested severance taxes on natural gas from prior production years.

^{(1) -} The drop in revenues which occurred in FY99 was due, in part, to the reduced taxation rates put in place by Chapter 168 of the 1999 Session Laws, "Oil Producers Recovery - 2."

^{(2) -} FY06 and FY07 natural gas revenues include \$19.5 million and \$13.3 million respectively in previously protested severance taxes from prior production years.

^{(3) -} FY98 coal revenues include \$8.0 million in previously protested severance taxes from prior production years.

^{(4) -} The drop in revenues which occurred in FY94 was due to the expiration of the Capital Facilities Tax on coal and trona.

- (1) Under the distribution formula in place for FY00, 6.75% of all mineral royalties in excess of \$200 million would normally flow to the University when that entity's bonded indebtedness necessitated the expenditure of those funds. Because the University's bonds issued under this provision of law were retired, the LRI received the amount that otherwise would have flowed to the University, approximately \$12.2 million.
- (2) In FY99 and FY00, mineral severance taxes and federal mineral royalties were diverted from the Highway Fund to the School Foundation Program until \$20 million was received. This revenue diversion from the Highway fund was offset with additional fuel tax revenue. In FY01 and FY02, the diversion of revenues from these sources continued, however, the amount was not limited to a fixed dollar amount, but was a dollar for dollar swap in the amount raised by the fuel tax.
- (3) Chapter 190, 2005 Session Laws diverts federal mineral royalties over the \$200 million cap from the School Foundation Program (SFP) to the Higher Education Endowment Account and Hathaway Endowment Account, beginning in FY05. Amounts diverted are reduced as necessary to ensure an unobligated, unencumbered balance of \$100 million in the SFP as of July 1 of each fiscal year. Of the amounts diverted, 21 percent is distributed to the Higher Education Endowment Account until the account balance reaches \$105 million, and 79 percent is distributed to the Hathaway Endowment Account until the account balance reaches \$400 million. These distributions were completed in FY08.
- (4) The state receives coal lease bonus revenue, which is currently distributed to these specific funds. Total coal lease bonus revenue in FY09 was \$213,630,037. The projected coal lease bonuses for the forecast period are \$47.2 million per year in FY10-12, and \$29.3 million in FY13.
- (5) Beginning in FY98, coal lease bonus revenues normally flowing to the Legislative Royalty Impact Assistance Account were diverted to the School District Capital Construction Account.
- (6) In FY99, \$4.5 million of Highway Fund federal mineral royalties were diverted to the Transportation Enterprise Account. In fiscal years 2000-02, \$7,242,000 in highway FMR funds were diverted to this account.
- (7) Federal legislation was enacted in December 2007 to reduce the state's share of federal mineral royalties by 2%, beginning in FY08. This revenue decrease will reduce distributions to the School Foundation Program Account, the School Capital Construction Account, and the Budget Reserve Account.

- (1) Under the distribution formula in place for FY00, 6.75% of all mineral royalties in excess of \$200 million would normally flow to the University when that entity's bonded indebtedness necessitated the expenditure of those funds. Because the University's bonds issued under this provision of law were retired, the LRI received the amount that otherwise would have flowed to the University, approximately \$12.2 million.
- (2) In FY99 and FY00, mineral severance taxes and federal mineral royalties were diverted from the Highway Fund to the School Foundation Program until \$20 million was received. This revenue diversion from the Highway fund was offset with additional fuel tax revenue. In FY01 and FY02, the diversion of revenues from these sources continued, however, the amount was not limited to a fixed dollar amount, but was a dollar for dollar swap in the amount raised by the fuel tax.
- (3) Chapter 190, 2005 Session Laws diverts federal mineral royalties over the \$200 million cap from the School Foundation Program (SFP) to the Higher Education Endowment Account and Hathaway Endowment Account, beginning in FY05. Amounts diverted are reduced as necessary to ensure an unobligated, unencumbered balance of \$100 million in the SFP as of July 1 of each fiscal year. Of the amounts diverted, 21 percent is distributed to the Higher Education Endowment Account until the account balance reaches \$105 million, and 79 percent is distributed to the Hathaway Endowment Account until the account balance reaches \$400 million. These distributions were completed in FY08.
- (4) The state receives coal lease bonus revenue, which is currently distributed to these specific funds. Total coal lease bonus revenue in FY09 was \$213,630,037. The projected coal lease bonuses for the forecast period are \$47.2 million per year in FY10-12, and \$29.3 million in FY13.
- (5) Beginning in FY98, coal lease bonus revenues normally flowing to the Legislative Royalty Impact Assistance Account have been diverted to the School District Capital Construction Account.
- (6) In FY99, \$4.5 million of Highway Fund federal mineral royalties were diverted to the Transportation Enterprise Account. In fiscal years 2000-02, \$7,242,000 in highway FMR funds were diverted to this account.
- (7) Federal legislation was enacted in December 2007 to reduce the state's share of federal mineral royalties by 2%, beginning in FY08. This revenue decrease will reduce distributions to the School Foundation Program Account, the School Capital Construction Account, and the Budget Reserve Account.
