**Vol. X, No. 3  
October, 1999**

## ***1998 Municipality Population Estimates***

As of July 1, 1998, the population within 97 Wyoming incorporated cities and towns was estimated at 332,231, an increase of 4.6 percent since April 1, 1990 census. Most of the state's large cities with population over 10,000 displayed growth. Their population figures for 1998 and growth rates between 1990 and 1998 are as follows: Cheyenne (53,640; 7.3%), Casper (48,283; 3.2%), Laramie (25,035; -6.2%), Rock Springs (19,408; 1.9%), Gillette (19,463; 10.9%), Sheridan (14,591; 4.9%), Green River (13,059; 2.7%), Evanston (11,475; 5.2%), and Riverton (10,126; 10.0%). Among the cities with population over 5,000, Jackson enjoyed the strongest expansion of 23.6 percent, while only Rawlins suffered a 6.7 percent loss during the period (see page 2).

## ***1998 Population by Race and Hispanic***

The state's Asian (including Pacific islanders) population totaled 4,022 in 1998, nearly a 38 percent gain over the 1990 census figure, according to the estimates of U.S. Census Bureau. The largest minority group, in Wyoming, is Hispanic (Hispanic Origin can be of any race) whose population grew 12.1 percent to 28,872. There were 10,607 American Indians and 4,082 Black persons in the state in 1998, and their growth rates were 8.3 and 9.6 percent respectively. The majority, Non-Hispanic White, which represents 90.5 percent of the total population, increased only 5.5 percent since 1990.

For the nation, both Asian and Hispanic populations surged over 35 percent, while the Non-Hispanic white population experienced a slight expansion of 3.8 percent from 1990 to 1998, and its makeup of the total population dropped to 72.3 percent from 75.7 percent during the same period (see page 3).

## ***Income, Poverty, and Health Insurance***

Based on the comparisons of 2-year moving average (1996-97 and 1997-98), Wyoming's median

household income, at \$34,597 for the average of 1997-98, ranks 36<sup>th</sup> in the nation. However, it's robust 4.7 percent yearly increase between the two measuring periods was the 14<sup>th</sup> highest in the nation. The growth rate for the U.S. average was 2.7 percent and the typical American family's income reached an all-time high at \$38,900 in 1998.

Wyoming also showed a decline in poverty rate. A total of 12.1 percent of Wyoming residents have incomes below the federal level of \$16,660 for a family of four. The nation's overall poverty rate, at 12.7 percent in 1998, was the lowest in two decades.

An estimated 78,000 people in Wyoming, or 16.2 percent of the population, were without health insurance coverage during the recent period. This uninsured rate was significantly higher than the 14.5 percent in the prior reporting period. The national average rate of uninsured population in 1998 also increased to 16.3 percent from 16.1 percent in 1997 (see page 4).

## ***1997 Economic Census***

The data from the census are published on the basis of the North American Industry Classification System (NAICS). Recently released reports with Geographic Area Series data for Wyoming include economic sectors with NAICS Codes of 54, 56, and 61. Each report provides several key economic statistics including number of establishments (locations), number of employees, annual payroll, and measure of output such as sales, receipts, or revenue, mostly for the geographic coverage of the state, counties, and cities with 2,500 or more inhabitants.

All results of the 1997 Economic Census are available on the Census Bureau's Internet site (<http://www.census.gov>) and on compact disc (CD-ROM). The summary statistics of 2 sectors for the state are shown in this publication. Users can also contact our office for the detailed reports or technical assistance about the census (see page 5).
